

Richardsville Elementary School

Title I School-Wide Plan 2017-18

At Richardsville Elementary, we utilize Federally-funded Title I funds to enable us to provide a high quality education for every child. Our goal is that every student achieves a successful elementary school learning experience in order to equip all students with the necessary skills to be productive students at the next level.

This year, Richardsville Elementary School is offering a school-wide Title I program. Every primary student receives 90 minutes of core reading and 60 minutes of core math instruction. In addition, students receive 30 minutes of additional reading and 30 minutes of additional time (RTI) for math. The Title I program is designed to provide additional assistance for intervention, extra practice and enrichment. A reading and math intervention teacher may pull students to work in a small group during the 30-minute sessions. During both core and RTI times, students are engaged in a variety of researched-based instructional materials and activities. The staff at Richardsville Elementary utilizes a variety of assessments to measure students' progress. Examples of data include: Star Math and Star Reading tests, teacher-made and district assessments and other computer-based resources to monitor students' progress.
