Dear Parents/Guardians:

Welcome to the 2017-18 school year! Warren County Public Schools is committed to providing our students and staff with a safe and orderly environment for student learning and opportunities. Our Board of Education, administrators, teachers, and support staff are dedicated and committed to ensuring our schools are safe places for students to learn and teachers to teach. To ensure we honor this commitment, all of our schools have high expectations and clear accountability for student, staff, and guest behavior.

A positive and disruptive-free environment is critical to the success of all students and this requires the cooperation of all stakeholders. As a community, we must take a proactive approach and we ask that you and/or your child report anything that may pose a safety concern on our campuses. Reporting bullying, illegal drug use, or any unsafe behavior is everyone’s responsibility. We must work together by reinforcing the values of respect, kindness, and compassion in all that we do.

As always, please feel free to reach out to any school employee in the event you become aware of a concern that may pose harm to an individual. Our students are our most precious resource and I trust our actions will always reflect this core belief. In closing, thank you for allowing us to educate your child!

Respectfully,

Rob Clayton
Superintendent

WARREN COUNTY PUBLIC SCHOOLS
STUDENT HANDBOOK

PREFACE

The District Student Handbook has been adopted by the Warren County Board of Education in an effort to inform students, parents, school faculty, staff, and the school community of the policies relating to students of the Warren County Public School District.

Under the Kentucky guidelines for School Based Decision Making Councils, schools have authority to establish additional policies within the framework of Board-established rules and regulations. Please check with your child’s school for specific rules and regulations.

LEGAL AUTHORITY
of the
WARREN COUNTY PUBLIC SCHOOLS
BOARD OF EDUCATION

The constitution of the Commonwealth of Kentucky gives the Kentucky General Assembly the power by appropriate legislation to provide for an efficient system of common schools throughout the state. The Warren County Board of Education, a body politic and corporate, is empowered by authority of Kentucky Revised Statute 160.160 to do all things necessary to accomplish the purposes for which it was created.

The Warren County Board of Education discharges all duties and obligations specified by Kentucky Revised Statutes and by administrative regulations adopted by the State Board of Education. Matters not covered by these statutes and regulations are administered in accordance with the intent of the law and within the context of the highest possible ethical and professional standards.

MISSION STATEMENT

The mission of the Warren County Public Schools is to prepare our students to think independently, to learn throughout life, and to be happy, healthy, productive members of a democratic society.

RIGHTS AND RESPONSIBILITIES

Student Rights and Responsibilities
Students have a right to a quality education, within the resources available to the district, which meet their individual needs.

Students have a responsibility to complete assignments, participate in classroom instruction and respect the rights of others. For more information please see policy 09.428.
**Teacher Rights and Responsibilities**
Teachers have a right to receive respect and support from their co-workers, administrators, pupils, and parents/guardians of pupils.

Teachers have a responsibility to present educational materials and the experiences appropriate to the student’s abilities in their respective classrooms.

**Parent/Guardian Rights and Responsibilities**
Parents/guardians have a responsibility to instill in their child a sense of responsibility and respect and a personal need for an education.

**Title I Parent Involvement**
Federal guidelines require schools districts receiving Federal monies to develop a written procedure for the receipt and resolution of complaints. Any parent of a child in a **Warren County Public School** or a private who receives Title I funding may file a complaint.

**All complaints must:**

- Be in written form
- Contain information/evidence supporting the complaint
- Provide the name of the complainant and contact information
- Be signed by the person or representative filing the complaint

Upon receipt of the complaint, the District Title I coordinator will respond to the complaint within thirty (30) working days. All complaints and responses will be kept on file in the district office.

After the complainant has received a response from Warren County Public Schools, the complainant has thirty (30) days to appeal the local decision. This appeal must be filed in writing with the Kentucky Department of Education.

**Expectations for Parent Involvement**
Contingent on confirmation of resources and other necessary information being provided by state and federal authorities, it is the intent of the Board that parents of participating students shall be provided with flexible opportunities for organized, on-going, and timely participation in the planning, review, and improvement of the Title I program, including opportunities to suggest modifications, based on changing needs of parents and the schools.

All comments indicating parents' dissatisfaction with the Title I plan shall be collected and submitted along with the plan to the Department of Education.

The Title I program shall be designed to assist students to acquire the capacities and achieve the goals established by law, as well as the goals and standards established by the Board. These goals and standards shall be shared with parents in a manner that will give them: (1) timely information about programs; (2) a description and explanation of the
school’s curriculum, the forms of academic assessment used to measure student progress, the proficiency levels students are expected to meet; the achievement level of their child on each of the state academic assessments; and (3) if requested, opportunities for regular meetings to formulate suggestions and to participate in decisions relating to the education of their children.

**Building Capacity for Involvement**

In order to ensure effective parent involvement for building capacity, the District must:

- Assist parents in understanding Kentucky’s assessment and their child’s performance.
- Provide training and materials to help parents work with their children to improve their achievement (i.e. literacy and technology training).
- Train staff with the assistance of parents on how to reach out to, communicate and work with parents as equal partners in their children’s education.
- Implement and coordinate parent programs.
- Inform parents about school activities and meetings in a language they can understand.
- Coordinate and integrate parent involvement programs with Head Start, the Home Instruction Program, and public preschool to support parents in helping in their children’s education.

The District may:

- Involve parents in the development of training for staff to improve the effectiveness of the training.
- Provide transportation and childcare to enable parents to participate in school related meetings and training.
- Offer meetings at a variety of times and conduct in-home conferences to encourage parent involvement.
- Adopt and implement model approaches to improve parent involvement and provide support for parent involvement as request by parents.
- Establish a District wide parent advisory council and involve community organizations and businesses in parent involvement activities.
- Train parents to help promote the involvement of other parents.
- Provide literacy training, if no other funds are available for training.
Support for Program
If the District's Title I allocation is $500,000 or more, the District shall reserve not less than one per cent (1%) of its allocation for the purpose of promoting parent involvement and shall distribute to Title I schools not less than ninety-five percent (95%) of the reserved funds. Parents of participating students shall be provided the opportunity to help decide how this portion of the Title I funds will be allotted for parental involvement activities.

The District will provide coordination, technical assistance, and other support necessary to assist schools in planning and implementing effective parent involvement activities to improve student academic achievement and school performance. These measures may include, but shall not be limited to, the following:

1. Designation of resources to assist in communicating with parents, transporting them to meeting sites and/or implementing home visits, providing child-care for meetings, encouraging them to use available parent resource centers, and working with them to improve parenting skills, particularly those that will assist them in working with their child to improve his/her educational achievements. Resources may include individuals, agencies, materials, and services.

2. Sharing options for coordinating and integrating Title I program strategies with services of other community programs, businesses, and agencies.

3. Identification of ways in which parents can be involved in staff training activities to demonstrate the value of parent involvement and various techniques designed to successfully engage parents as equal partners in their child's education.

4. Making a good faith effort to convene an annual meeting at a convenient time to which all parents of participating children shall be invited and encouraged to attend for informing parents of their school's participation in and requirements for Title I programs and of their rights to be involved.

5. Designing and conducting an effective annual evaluation process whereby parents can share their ideas about the content and effectiveness of this policy in improving the academic quality of schools receiving Title I funds, and the plan designed to implement it. The process shall focus on the following questions: Has the academic quality of the school improved? Does this policy increase parent participation? What barriers to parent participation still exist, and how can they be reduced or removed? The findings produced by the annual evaluation shall be utilized to design strategies for school improvement and for revising this policy, if necessary.

6. In the design of activities and materials for parents, particular attention shall be given to reaching and involving those who are economically disadvantaged, are
disabled, have limited English proficiency, have limited literacy, or are of any racial or ethnic minority background.

**School Policy**
Title I schools must provide parents with timely information about Title I programs; a description and explanation of the curriculum, the forms of academic assessment including a definition of proficiency; opportunities for regular meetings and to participate in decisions relating to the education of their children and the opportunity to respond to any suggestions. Each Title I school shall submit to the Superintendent and Board, for review and comment, its Title I school parent involvement policy, which must meet all legal requirements, including a school-parent compact developed in keeping with legal requirements. This policy shall be developed jointly with, and distributed by the school to, parents of participating students. A copy of each school's parent involvement policy and accompanying checklist shall be kept on file in the Central Office.

**ADMINISTRATIVE REGULATIONS**

**Authority Over Students**
Pupils of the district are under the authority of the respective administrators and teachers therein while in school and while in school buildings, on school grounds, participating in co-curricular and extra-curricular activities, and while going to and returning from school or until properly released. In addition to Carnegie units, students may earn credit toward high school graduation through the District’s standards-based, performance-based credit system that complies with requirements of Kentucky Administrative Regulation. Procedures for developing and amending the system shall address the following:

1. Conditions under which high school credit will be granted under the system that allow students to demonstrate proficiency and earn credit for learning acquired outside the normal classroom setting, outside of school, or in prior learning;
   Performance-based credit may be earned while the student is still “in school,” but the instructional setting will look different from a traditional “seat time” environment.
2. Performance descriptors and their linkages to State content standards and academic expectations;
   At the high school level, performance descriptors and evaluation procedures shall be established to determine if the content and performance standards have been met.
3. Assessments and the extent to which state-mandated assessments will be used;
4. An objective grading and reporting process; and
5. Criteria to promote and support school and community learning experiences, such as internships and cooperative learning, in support of a student’s individual learning plan. Such experiences shall be supervised by qualified instructors and aligned with State and District content and performance standards.

Students may receive credit toward graduation requirements by successfully completing performance-based credits in accordance with the following guidelines:

1. Students may earn performance-based credit:
   a. as credit recovery;
   b. if the student is taking a performance-based course for acceleration purposes; or
   c. if the student is taking a course designated as “performance-based”.

In addition to 1 (a), (b), or (c) above, students taking performance-based courses must be enrolled in the District’s Lighthouse Academy High School, Greenwood High School, South Warren High School, Warren Central High School, Warren East High School, Beacon Academy, GEO International High School, Warren County Day Treatment, or any of their respective feeder schools.
Any District school choosing to participate in a performance-based credit system will develop performance descriptors and assessments for measuring student progress. Participating schools will determine in which content areas students may earn credits. The District Student Handbook and each high school student handbook shall include complete details concerning specific graduation requirements.

**Other Provisions**
The Board may award a diploma to a student posthumously indicating graduation with the class with which the student was expected to graduate.

Consistent with the District’s graduation practices for all students, an alternative high school diploma shall be awarded to students with disabilities in compliance with applicable legal requirements. In addition, former students may submit to the Superintendent a request that the District provide them with an alternative high school diploma to replace the certificate of attainment they received at time of graduation from the District.

Upon recommendation of the Chief Academic Officer and approval of the Board, the Warren County Public Schools will issue a District diploma to students meeting all state and District graduation requirements but not being enrolled in a District high school at the date of graduation and/or not having been enrolled in a District high school either the first or second semester of the school year.

**Early Graduation Certificate**
Students who meet all applicable legal requirements shall be eligible for early graduation in relation to receipt of an Early Graduation Certificate. Students wishing to follow an early graduation pathway shall notify the Principal of their intent prior to the beginning of grade nine (9) or as soon thereafter as the intent is known, but within the first thirty (30) school days of the academic year in which they wish to graduate. A Letter of Intent to Apply shall be entered into the student information system by October 1 of the year the student declares intent to graduate early.

High school students enrolled in an A1 school may earn, through credit recovery courses, academic credit to be applied toward graduation requirements in accordance with the following guidelines:

1. Each unit requires approval of the Principal to be applied toward graduation requirements.
2. Credit may be earned only to make up failed subjects in order to complete high school graduation requirements. The Principal/designee may consider other special circumstances;
3. Only approved courses and curricular programs offered by the high school will be accepted; and

Students may earn units of academic credit to be applied toward graduation requirements by completing online courses offered through agencies approved by the Board. Credit from online courses may be earned under one of the following circumstances:

   a. The express approval of the Principal/designee shall be obtained before a student enrolls in a virtual course;
   b. The school must receive an official record of the final grade before credit toward graduation will be recognized; and
   c. Students taking such courses must be enrolled in the District.

The District shall recognize only those online/digital courses from approved accredited agencies.
Virtual Online Courses
As determined by school/council policy, students applying for permission to take an online course shall complete prerequisites and provide teacher/counselor recommendations to confirm the student possesses the maturity level needed to function effectively in an online learning environment. Online courses may be subject to review by the Superintendent/designee for conformance with Kentucky Core Academic Standards and District graduation requirements.

Provided online courses are part of the student’s regular school day coursework and within budgetary parameters, the tuition fee and other costs for an online course shall be borne by the District for students enrolled full-time from funds that have been allocated to the school. The Superintendent shall determine, within the budget adopted by the Board, whether additional funding shall be granted, based on supporting data provided by the Principal. Textbooks will be provided by the school.

College Credit/Dual Credit
To differentiate/accelerate the curriculum to meet the needs of students, the District shall recognize courses from post-secondary education institutions. Students will receive one (1) high school credit for every three (3) semester hours of college work. Credit may be earned in accordance with the following requirements:

1. The student must present documentation supporting enrollment in the post-secondary institution;
2. The course is not offered at the high school;
3. The course is offered at the high school, but the student will not be able to take it due to an unavoidable scheduling conflict;

Pupils who transfer from a non-accredited school may be required to take tests from the previous grade to determine grade placement or course credit.
A student who has completed the requirements established by the State Department of Education for a vocational program shall receive a vocational certificate of completion specifying the areas of competence.

**Diplomas**

Upon successful completion of all state and Board requirements, the student shall receive a diploma indicating graduation from high school.

**Promotion/Retention**

Each school shall determine criteria for student progress through the school’s program. The criteria shall reflect mastery of state-required capacities and be aligned with the Kentucky Performance Rating for Educational Progress (K-PREP).

A student may advance through the primary program without regard to age if the District determines that s/he has acquired the academic and social skills taught in kindergarten and that advancement would be in his/her best educational interest. Successful completion of the primary program, as determined by methods set out in Kentucky Administrative Regulations, shall be a prerequisite for a child's entrance into the fourth grade.

Promotions in elementary school shall be made by the Principal on recommendation of the teacher. Promotions in the middle grades shall be made under the direction of the Principal. Promotions in high school shall be made under the direction of the Principal.

**Students With Disabilities**

In cases which involve students with disabilities, the procedures mandated by federal and state law for students with disabilities shall be followed.

**Review**

Students not meeting the standard for promotion shall be subject to a Retention Review. The Retention Review shall be conducted by the Principal and shall include, but not be limited to: a conference with the student’s parents, and a review of teacher’s recommendations, pertinent date from the student’s cumulative folder, records of in-class interventions, and results of remediation. At the conclusion of the review, the Principal shall make a determination of promotion of retention. Such determination may be subject to further review by the Superintendent.

### Grading (WCBE 08.221)

**Achievement**

Teachers shall maintain detailed, systematic records of the achievement of each student in the state-mandated student management system on a schedule determined by the school Principal.

**Grade Reports**

Grade reports shall be issued every nine (9) weeks for elementary, middle and high school students. Mid-term reports will be sent to parent’s midway through the grading period for grades four through high school (4-12).
Primary Assessment
Each primary teacher shall provide parents with a standards-based progress report. The following continuum to reflect the continuous progress of each child shall be used for primary school students:

Excellent (E) – Satisfactory (S) – Progressing (P) – Not on Grade Level (N) – Not taught (T)

Grading Scale
The following standards shall be adhered to for grades four through twelve (4-12):

<table>
<thead>
<tr>
<th>Grade</th>
<th>Range</th>

<tbody>
<tr>
<td>A</td>

<td>Below 60</td>
</tr>
<tr>

<td>Incomplete</td>
</tr>
<tr>

</tbody>
</table>

Grades earned on end-of-course exams required for high school courses designated by Kentucky Administration Regulation shall count as ten percent (10%) of a student’s final grade in a course. An incomplete (I) grade must be changed to a passing or failing grade within the first ten (10) days of the next grading period. Make-up work is the complete responsibility of the student. A percentage grade shall be included in the student’s grade report in addition to the letter grade.

Optional grades of E for excellent, S for satisfactory, and U for unsatisfactory may be used in P.E., art, music, etc. at the middle school level. In grades K-3, a separate progress report will be sent home to parents at the end of each nine-week grading period.

A middle school student may be considered for retention if s/he fails three (3) subjects with at least two (2) of said subjects being from required course areas. A student may be required to repeat a subject without being retained for the complete grade.

Disciplinary Action
A student’s grade shall not be lowered as a disciplinary action. However, it may be possible for a student to receive a zero (0) on an assessment or assignment if the student is caught cheating.

Parent Conferences
Parent/teacher conferences may be scheduled when requested by the parent or teacher.

Instructional Resources (WCBE 08.232) Pending Board Approval

Survey
Schools not having SBDM school councils shall survey teachers to determine their needs for instructional resources. The results of the survey shall be used to establish priorities for purchase.
**Allocation Method**
Within budgetary limits, schools or school councils shall establish an equitable method of allocating funds to purchase instructional resources.

**Financial Report**
A financial report on allocations to and expenditures for instructional resources shall be prepared annually by the Board and shall be a public record.

Each school may carry forward to the next fiscal year any part of the instructional resource allocation distributed to the school that has not been spent or committed in the current fiscal year.

**Instructional Resource Fund**
Schools with any grade from P-8 may purchase instructional resources using State funds in accordance with 704 KAR 003:455.

Each school allocated instructional resource funds shall complete an annual plan to identify purchases following guidelines of the Kentucky Board of Education. The annual plan shall be approved by the Board and by the School Council in SBDM schools.

All plans shall be approved by the local Board as to sufficiency of funding to support the requested purchases.

Any purchase exceeding the funds allocated shall be paid from other Council funds in SBDM schools.

**Fees**
If the Board authorizes charging rental fees for students in grades nine through twelve (9-12), the Board shall establish those fees annually.

Instructional resources shall be made available to all students. No student shall be denied full participation in any educational program due to an inability to pay for, or rent, all necessary instructional resources.

Fee waivers shall be provided as required by applicable statutes and regulations.

**Responsibility**
Students or parents shall compensate the District for instructional resources that are lost, damaged, or destroyed while in the student's possession.

**Sectarian Texts**
No book or other publication (written or digital) of a sectarian, infidel, or immoral character or one that reflects on any religious denomination shall be used or distributed in any school.
Copyrighted Materials (WCBE 08.2321)

Electronic Materials
All employees shall use electronic materials only in accordance with the license agreement under which the electronic materials were purchased or otherwise procured. Electronic materials are defined as computer software, databases, video tapes, compact and laser disks, electronic textbooks, Internet based resources or any other copyrighted material distributed in electronic form.

Any duplication of copyrighted electronic materials, except for backup and archival purposes, is a violation of the law, unless the license agreement explicitly grants duplication rights. The archival copy is not to be used on a second computer at the same time the original is in use. In addition, illegal copies of copyrighted software shall not be used on Board equipment. Through appropriate activities, the Director of Technology shall inform all employees of their compliance responsibilities with electronic materials licensing agreements and of the penalties for violating these agreements. Employees shall be required to sign an agreement signifying that they have read and will abide by the Acceptable Use Policy (Section 08.2323).

The Superintendent or designee shall sign all District software license agreements. Each school using licensed software shall have on file a copy of the executed agreement.

Review of Instructional Materials (WCBE 08.2322)

Request
The review of instructional materials, including textbooks, supplementary materials, electronic resources and library books, on the basis of citizen concerns will be conducted in response to a properly filed written request under procedures developed by the Superintendent. In schools operating under SBDM, these procedures for review shall include school council consideration of the written concerns regarding instructional materials. Forms for such requests may be obtained from the school and will be made available to any resident of the District at the Superintendent's office. The request shall include a written statement of reason for objection and a statement of the desired action regarding the material under consideration. Upon submission of the completed request to the Superintendent's office, a school committee shall be appointed.

Employees receiving a written request for review of instructional materials shall notify the Principal of the complaint, who shall then notify the Superintendent. The Superintendent shall notify the Board of all complaints filed and the council's response.
In schools operating under SBDM, these procedures for review shall include school council consideration of the written concerns regarding instructional materials before a Principal’s Committee is convened.

**Principal's Committee**
The Principal shall appoint a review committee which shall consist of the following people: the Principal, media librarian, one (1) teacher who teaches the subject area or grade level in which the instructional material is used, and the supervisor of librarians.

Within ten (10) calendar days of the receipt of the prescribed form by the Superintendent's office, the committee shall review the instructional material and prepare a written response to the person who signed the request.

Unless the citizen files a written appeal to the Superintendent within ten (10) calendar days of the receipt of the committee's response, the recommendations of the Principal's Committee shall be followed.

**Superintendent’s Committee**
In the event of the citizen's written appeal the Superintendent shall appoint a review committee which shall consist of the following people: one (1) administrator, one (1) supervisor at the appropriate grade level, and (1) one media librarian. No person shall serve as a member on both the Principal's and Superintendent's committee relating to the same review request.

The Superintendent's Committee shall review the citizen's request, the report of the Principal's Committee, and the instructional material in question; ask for further information, if necessary, and prepare a written report of its findings and recommendations to the Superintendent within thirty (30) calendar days after receipt of the citizen's appeal.

Unless the citizen files a written appeal to the Board within ten (10) calendar days of the receipt of the Superintendent's Committee's response, the recommendations of the Committee shall be followed. In schools operating under SBDM, the review process shall be determined by council policy.

**Appeal to the Board**
In the event of the citizen's written appeal, the Board shall review the instructional material in question and both the Principal's and Superintendent's Committees' reports.

The Board shall issue a written decision within sixty (60) calendar days after receipt of the citizen's appeal. The Board's decision shall be considered final. Challenged books and/or materials shall be withdrawn from the school only at the direction of the Board upon the conclusion of the above steps.
Access to Electronic Media (WCBE 08.2323)

The Board supports reasonable access to various information formats for students, employees and the community and believes it is incumbent upon users to utilize this privilege in an appropriate and responsible manner as required by this policy and related procedures, which apply to all parties who use District technology.

Safety Procedures and Guidelines
The Superintendent shall develop and implement appropriate procedures to provide guidance for access to electronic media. Guidelines shall address teacher supervision of student computer use, ethical use of electronic media (including, but not limited to, the Internet, e-mail, and other District technological resources), and issues of privacy versus administrative review of electronic files and communications. In addition, guidelines shall prohibit utilization of networks for prohibited or illegal activities, the intentional spreading of embedded messages, or the use of other programs with the potential of damaging or destroying programs or data.

Students shall be provided instruction about appropriate online behavior, including interacting with other individuals on social networking sites and in chat rooms and cyberbullying awareness and response.

Internet safety measures, which shall apply to all District-owned devices with Internet access or personal devices that are permitted to access the District’s network, shall be implemented that effectively address the following:

- Controlling access by minors to inappropriate matter on the Internet and World Wide Web;
- Safety and security of minors when they are using electronic mail, chat rooms, and other forms of direct electronic communications;
- Preventing unauthorized access, including “hacking’ and other unlawful activities by minors online;
- Unauthorized disclosure, use and dissemination of personal information regarding minors; and
- Restricting minors’ access to materials harmful to them.

A technology protection measure may be disabled by the Board’s designee during use by an adult to enable access for bona fide research or other lawful purpose.

The District shall provide reasonable public notice of, and at least one (1) public hearing or meeting to address and communicate its initial Internet safety measures.

Specific expectations for appropriate Internet use shall be reflected in the District’s code of acceptable behavior and discipline including appropriate orientation for staff and students.
Permission/Agreement Form
A written parental request shall be required prior to the student being granted independent access to electronic media involving District technological resources.

Students will be granted access to District owned electronic resources upon signed agreement with the policies and procedures outlined in the District's Student Handbook. The student's parent/legal guardian (or the student who is at least 18 years old) must provide the Superintendent or designee with a written request to rescind or modify this agreement.

The required permission/agreement form, which shall specify acceptable uses, rules of on-line behavior, access privileges, and penalties for policy/procedural violations, must be signed by the parent or legal guardian of minor students (those under 18 years of age) and also by the student. This document shall be kept on file as a legal, binding document. In order to modify or rescind the agreement, the student's parent/guardian (or the student who is at least 18 years old) must provide the Superintendent with a written request. This document shall be kept in the student's permanent record folder as a legal, binding document until graduation. In order to modify or rescind the agreement, the student's parent/guardian (or the student who is at least 18 years old) must provide the Superintendent or designee with a written request.

Employee Use
Employees shall not use a code, access a file, or retrieve any stored communication unless they have been given authorization to do so. (Authorization is not required each time the electronic media is accessed in performance of one’s duties.) Each employee is responsible for the security of his/her own password.

Employees are encouraged to use electronic mail and other District technology resources to promote student learning and communication with the home and education-related entities. If those resources are used, they shall be used for purposes directly related to work-related activities.

Technology-based materials, activities and communication tools shall be appropriate for and within the range of the knowledge, understanding, age and maturity of students with whom they are used.

District employees and activity sponsors may set up blogs and other social networking accounts using District resources and following District guidelines to promote communications with students, parents, and the community concerning school-related activities and for the purpose of supplementing classroom instruction.

Networking, communication and other options offering instructional benefits may be used for the purpose of supplementing classroom instruction and to promote communications with students and parents concerning school-related activities.
In order for District employees and activity sponsors to utilize a social networking site for instructional, administrative or other work-related communication purposes, they shall comply with the following:

1. They shall request prior permission in writing from the Superintendent.

2. If permission is granted, staff members will set up the site following any District guidelines developed by the Superintendent or designee and school guidelines developed by the Principal or designee.

3. Guidelines may specify whether access to the site must be given to school/District technology staff.

4. If written parental consent is not otherwise granted through AUP forms provided by the District, staff shall notify parents of the site and obtain written permission for students to become “friends” prior to the students being granted access. This permission shall be kept on file at the school as determined by the Principal.

5. Once the site has been created, the sponsoring staff member is responsible for the following:
   a. Monitoring and managing the site to promote safe and acceptable use; and
   d. Observing confidentiality restrictions concerning release of student information under state and federal law.

Staff members are discouraged from creating personal social networking sites to which they invite students to be friends. Employees taking such action do so at their own risk.

All employees shall be subject to disciplinary action if their conduct relating to use of technology or online resources violates this policy or other applicable policy, statutory or regulatory provisions governing employee conduct. The Professional Code of Ethics for Kentucky School Certified Personnel requires certified staff to protect the health, safety, and emotional well-being of students and confidentiality of student information. Conduct in violation of this Code, including, but not limited to, such conduct relating to the use of technology or online resources, must be reported to Education Professional Standards Board (EPSB) as required by law and may form the basis for disciplinary action up to and including termination.

**Community Use**

On recommendation of the Superintendent/designee, the Board shall determine when and which computer equipment, software, and information access systems will be available to the community.

Upon request to the Principal/designee, community members may have access to the Internet and other electronic information sources and programs available through the District’s technology system, provided they attend any required training and abide by the rules of usage established by the Superintendent/designee.
**Disregard of Rules**
Individuals who refuse to sign required acceptable use documents or who violate District rules governing the use of District technology shall be subject to loss or restriction of the privilege of using equipment, software, information access systems, or other computing and telecommunications technologies.

Employees and students shall be subject to disciplinary action, up to and including termination (employees) and expulsion (students) for violating this policy and acceptable use rules and regulations established by the school or District.

**Responsibility for Damages**
Individuals shall reimburse the Board for repair or replacement of District property lost, stolen, damaged, or vandalized while under their care. Students or staff members who deface a District public or private web site or otherwise make unauthorized changes to a web site shall be subject to disciplinary action, up to and including expulsion and termination, as appropriate.

**Responding to Concerns**
School officials shall apply the same criterion of educational suitability used to review other educational resources when questions arise concerning access to specific databases or other electronic media.

**Audit of Use**
Users with network access shall not utilize District resources to establish electronic mail accounts through third-party providers or any other nonstandard electronic mail system.

The Superintendent/designee shall establish a process to determine whether the District’s education technology is being used for purposes prohibited by law or for accessing sexually explicit materials. The process shall include, but not be limited to:

1. Utilizing technology that meets requirements of Kentucky Administrative Regulations and that blocks or filters internet access for both minors and adults to certain visual depictions that are obscene, child pornography, or, with respect to computers with Internet access by minors, harmful to minors;
2. Maintaining and securing a usage log; and
3. Monitoring online activities of minors.

**Retention of Records for E-Rate Participants**
Following initial adoption, this policy and documentation of implementation shall be retained for at least ten (10) years after the last day of service in a particular funding year.
Emergency Closings (WCBE 08.33) Pending Board Approval

When, in the judgment of the Superintendent, an emergency exists, he shall close the schools or reduce the hours of the school day as appropriate in the interest of the health and safety of the pupils.

Weather-Related Schedule Changes
Warren County schools may be cancelled due to weather-related situations. Radio and television stations are notified by 6:00 A.M. and are requested to broadcast the announcement as often as possible between 6:00 and 8:00 A.M. Also, there could be a one or two hour delay in the opening of schools. Students, however, may be dropped off at their school on their regular time schedules, as there will be school staff available to supervise them. Severe weather may also cause schools to end the school day early. A minimum of two hours notification is necessary for personnel to be available to transport students home. Central Office will notify all schools of any early closings prior to the media announcement, which will be made by the Superintendent.

Parents of preschool children should always listen carefully for any special arrangements or cancellations during severe weather.

School of Residence (WCBE 09.11)

Assigned
All pupils shall be assigned by geographic attendance districts and will attend the school designated to serve their area of residence. Specific areas served by each attendance district will be marked on a map in the central administration office and posted on the District website. The Board may revise attendance districts from time to time to attain maximum utilization of school facilities.1 The Board may find it necessary to assign students outside their normal attendance area as set forth in this policy.

Residence Defined
Pupils whose parents or guardians are legal residents of the school District and have custody of the student, or as otherwise provided by state or federal law, shall be considered residents and entitled to the privileges of the District’s schools. Residence is defined by primary living quarters.
If the court system has granted parents/guardians joint custody of a child then the primary residence has to be declared upon enrollment and the child has to remain in that designated school for the school term.

Proof of Residency
In determining residency for the purpose of this policy two (2) or more of the following items and/or documents shall be required. The School, District and/or the Board may at their discretion request additional information.

1. Utility bill in the name of the parent/guardian;
2. Lease agreement in the name of the parent/guardian;
3. Notarized statement of residency;
4. Copy of Deed for Primary Residence;
5. Voter Registration; or
6. Vehicle Registration.

**Transfers and Withdrawals (WCBE 09.111)**

**Teacher to Ascertain Reason**
When a pupil of compulsory school age withdraws from school, the teacher of the pupil shall ascertain the reason.

**Report to DPP**
The teacher shall immediately report the withdrawal and the reason for it through the Principal to the Superintendent's office (Director of Pupil Personnel).

**Change of Residence**
If the child has withdrawn because of residence, the next residence shall be ascertained and included in the report. The District shall notify the Kentucky Department of Education when a new student enrolls.

**Missing Children**
The Director of Pupil Personnel shall notify the Justice Cabinet of any request for the records of a student who has been flagged as missing.

**Permission**
No written permission for withdrawal shall be required after the student's eighteenth (18th) birthday.

Students between the ages of six (6) and eighteen (18) shall enroll and be in regular attendance in the schools to which they are assigned and shall be subject to compulsory attendance.

**Follow-Up By District Personnel**
Within three (3) months of the date of a student’s withdrawal from school, District personnel designated by the Superintendent shall contact each student who has withdrawn from school to encourage reenrollment in a regular, alternative, or GED preparation program. If the student does not reenroll at that time, personnel shall make at least one (1) more attempt toward reenrollment of the student before the beginning of the next school year.

**Student Requests for Transfer**
Requests for transfer to another District school must be based on physical, psychological, or educational reasons. Family hardship may also be considered in changing school assignment.
In compliance with and as set forth by federal requirements, the District shall allow students to transfer to another District school if:

1. Another school option exists;
2. The assigned school is identified for school improvement under federal guidelines (priority for transfer will be given to the lowest achieving children from low-income families);*
3. The assigned school is designated by the state as being “persistently dangerous”;
4. The student becomes a victim of a violent criminal offense, as determined by state law, while attending school.³

*Because the Kentucky request to the U. S. Dept. of Education for flexibility, was granted, reason #2 above is waived through the 2018-2019 school year.

In-District Transfers
Upon proper application, students who reside in one elementary, middle or high school attendance district within the District may be permitted to transfer to another District elementary, middle, or high school, provided such approval does not result in employment of additional staff, an imbalance in class size, class cap or overcrowding in the receiving school.

Each middle and high school Principal may accept additional students in a number not to exceed an established percentage of the student population living within a schools specific attendance area. This percentage shall be recommended by the Superintendent to the Board of Education. The allocation of funding for the school will not be affected by this percentage and no staff will be added. The percentage and method for calculation shall be approved by the Board on an annual basis. The Board may allow out of district students to continue in a feeder school system provided they have been enrolled in that feeder system a minimum of two (2) years and it will not count toward the percentage calculation.

1. Requests for Child Care Transfers
   • Requests for child-care transfers must state clearly the reason the students cannot attend their assigned school.
2. Requests for Hardship Transfers
   • Requests for family hardship transfers must show clearly an unusual hardship different from that of other families in the District.
3. Requests for Medical Transfers
   • Parents/guardians of children with medical documentation from a medical doctor, psychologist or psychiatrist may make application for transfer according to Board policy. The transfer may be approved by the building Principal.
following consultation with the Director of Pupil Personnel and the District Health Coordinator. Parents/guardians shall be responsible for transportation, however if an IEP or 504 plan directs the transfer, the District may be required to provide the transportation.

4. Requests for Children of Full-Time Employee Transfers
   • Warren County Public School employees may apply for a transfer for their children. Application shall be made according to Board policy and the student must meet the criteria set by the Board policy. Approval by the building Principal may be granted provided such approval does not result in employment of additional staff, an imbalance in class size, class cap, or overcrowding in the receiving school. Parents/guardians shall be responsible for transportation.

5. Request is from year to year.
   • Parents/guardians are responsible for the transportation of their children when granted a transfer to another District school. No additional bus routes will be added. Questions regarding transportation must be addressed to the Director of Transportation.

Parents/guardians who wish to request a transfer of their child should file a properly completed application with the office of Director of Pupil Personnel, between the dates of April 1 and June 1, for the following school year. Applications received after June 1 will not be considered until all April 1 – June 1 applications have been processed. Applications may be obtained from the office of Director of Pupil Personnel. Requests for transfer after school starts will be considered only in extreme circumstances.

Students granted a transfer will have to reapply annually with preference given to those who had been granted a transfer the year before so long as the application is received, in the office of the Director of Pupil Personnel, on or before June 1.

Once transferred, a student can return only to his/her school of residence at the beginning of the next grading period/term, and cannot be granted additional transfers during a school year. Requests for transfer prior to the end of the grading period/term will be considered only in extreme circumstances.

Students granted a transfer must be in regular attendance (maximum of three (3) unexcused absences or three (3) unexcused tardies), be in good standing in regard to discipline and must be making minimum academic progress (maintains a “C” grade, cumulative through the student’s previous semester). Non-compliance with academic, attendance, or discipline requirements may result in forfeiture of future transfers or a return of the student to his/her school of residence. The return to school of residence should be at the beginning of the next grading period/term.
Once school has begun, a transfer student may be compelled to return to his/her school of residence if the class the transferred student is attending is at “cap” and a student in residence enrolls, making the class over “cap.” Students may be required to return to school of residence immediately if this should occur.

Students with disabilities may transfer within the guidelines of this policy as long as there is programming available at the transfer school that meets the specifications of the student’s IEP.

Transfers involving student participation in high school athletics will be in accordance with Kentucky High School Athletic Association (KHSAA) bylaws.

The Superintendent/designee is charged with resolving disputes regarding transfer cases.

**Resident Student Reassignment**

Should classes in a particular school exceed the allowable size limit specified by law or regulation, the Superintendent/designee is permitted to move pupils from their respective attendance areas to balance student/teacher assignments. Any such reassignment would be at the cost or service of the Board.

**When A Family Moves**

If a family moves from one attendance area to another within the school system during the school year, the pupil may be permitted to finish the school year in the school in which he/she was last enrolled (at no cost or service by the Board). An In-District Transfer application must be completed by the parent/guardian and submitted to the Principal for approval. The following criteria apply:

1. The Principal gives approval;
2. Class size limits are not exceeded;
3. The student maintains a “C” grade (cumulative through the student’s previous semester);
4. Must be in regular attendance (maximum of three (3) unexcused absences or three (3) unexcused tardies);
5. The student/parent provides transportation;
6. The student has an acceptable discipline record as determined by the Principal; and
7. There is no service provided or cost incurred by the Board.
8. Approval shall be granted with the understanding the student may be required to enroll at the school serving his/her attendance zone if the above criteria are not met. The student may be asked to return to their school or residence at the beginning of the next grading period/term.
Non Residents
Nonresident pupils upon application and timelines may be admitted to the District’s schools in accordance with Board policy and upon approval of the Superintendent. The number of nonresident pupils admitted to a school shall not exceed the number of in-district transfers granted for that school.

Admissions and Attendance (WCBE 09.12) Pending Board Approval

Residence Defined
Pupils whose parents or guardians are legal residents of the school District and have custody of the student, or as otherwise provided by state or federal law, shall be considered residents and entitled to the privileges of the District's schools. All other pupils shall be classified as nonresidents for school purposes.

Homeless Children and Youth
The term homeless children and youths' as defined by the U.S. Department of Education:
A) means individuals who lack a fixed, regular, and adequate nighttime residence (within the meaning of section 103(a)(1)); and
B) includes
   (i) children and youths who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; are abandoned in hospitals; or are awaiting foster care placement.
   (ii) children and youths who have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings (within the meaning of section 103(a)(2)(C));
   (iii) children and youths who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and
   (iv) migratory children (as such term is defined in section 1309 of the Elementary and Secondary Education Act of 1965) who qualify as homeless for the purposes of this subtitle because the children are living in circumstances described in clauses (i) through (iii).

The District shall provide educational and related services to homeless children and youth in a manner that does not segregate or stigmatize students on the basis of their homeless status.

The District shall provide its schools with guidelines that detail the rights of homeless students and the responsibilities that schools have to meet their needs.
and eliminate barriers to school attendance. These guidelines shall emphasize the right of homeless students to:

1. Have equal access to all educational programs and services, including transportation, that non-homeless children enjoy;
2. Continue attending their school of origin for the duration of homelessness;
3. Attend regular public school with non-homeless students; and
4. Continue to receive all services for which they are eligible (i.e., special education, gifted and talented, limited English proficient).

The District shall designate an appropriate staff person to serve as liaison to homeless children and youth. The District liaison must provide public notice of the educational rights of homeless children in places where they receive services.²

**Immigrants**
No student shall be denied enrollment based on his/her immigration status, and documentation of immigration status shall not be required as a condition of enrollment.

**Nonresidents**
Nonresident pupils may be admitted to the District's schools in accordance with Board policy and upon approval of the Superintendent.

Written nonresident pupil contract information shall be kept on file at both the attending and resident districts.

**Transfer of ADA**
Nonresident pupils may be admitted to the District schools upon payment of tuition and/or transfer of the pupil's average daily attendance as defined under Kentucky's public school fund.

**Foreign Exchange Students**
The District shall only accept students from exchange programs approved by the National Association of Secondary School Principals. Foreign exchange students shall attend for only one (1) school year for the purpose of gaining language and cultural experiences. Grade level placement of students shall be determined by the Principal.

Foreign exchange students will be allowed to enroll only during the first five (5) school days of each semester. The student must submit to the receiving school thirty (30) calendar days before enrollment a videotape of the student using conversational English to show the English speaking skills of the student. The school will determine if the student’s English speaking skills meet the enrollment requirements. These conditions and requirements may be modified in exceptional circumstances as determined by the Board upon recommendation of the Superintendent.
The Principal and/or his/her designee will determine the student’s schedule. Students will be expected to follow the school's rules of conduct and will follow the same disciplinary code as all students.

Foreign exchange students who are not in the U.S. on a visa issued specifically for educational purposes and thus have not paid the district yearly cost of educating a student may not be considered for graduation.

**Non-Immigrant Foreign Students**
Non-immigrant foreign students qualifying for F-1 immigration status or who obtain an F-1 student visa may be admitted to the District based on the following guidelines:

1. These students shall not be permitted to attend any publicly funded adult education program.
2. These students may be permitted to attend in grades nine through twelve (9-12), but not at earlier grade levels.
3. As required by law, these students shall pay a tuition fee equal to the full, unsubsidized per capita cost to the District for providing education to the student for the period of attendance.
4. The period of attendance shall not exceed twelve (12) months.

Approval shall be granted only when cocurricular activities and trips are instructional in nature, directly related to the instructional program, and scheduled to minimize absences from classroom instruction.

4. Students participating in an off-site virtual high school class or block may be counted in attendance in accordance with requirements set out in Kentucky Administration Regulation.

6. Students who attend classes for moral instruction at the time specified and for the period fixed shall be credited with the time spent as if they had been in actual attendance in school, and the time shall be calculated as part of the actual school work required by law. The exception to this policy is that if a student turns twenty-one (21) years of age prior to graduation from high school but has (on his/her twenty-first birthday substantially completed graduation requirements so that it is reasonable that the student will graduate at the conclusion of the current academic semester, or at the latest, at the end of the following semester, the student may, within the Board’s discretion and upon recommendation of the Principal, or Superintendent, remain enrolled in the high school so long as the student would otherwise be permitted to attend. Factors which could lead to a decision not to recommend continued attendance or a Board decision to reject a recommendation for continued attendance include, but are not limited to, the following: discipline issues, attendance and/or academic performance.

Students under age twenty-one (21) who already have graduated from an accredited or four (4) year high school shall be considered to have completed high school and shall not be permitted to enroll in the District. Students who have earned a GED shall be permitted to enroll to work toward completion of graduation requirements.

Any student who has been reported as a truant two (2) or more times is a habitual truant.

When students transfer from one Kentucky district to another, attendance information from the previous district shall become part of their official attendance record for that school year.

**Excused Absence Or Tardiness**

Unless the principal determines that extenuating circumstances exist, requests for date(s) falling within state or district testing periods shall not be granted.

The Principal’s determination may be appealed to the Superintendent/designee whose decision may then be appealed to the Board under its grievance policy and procedures.

Students receiving an excused absence under this section shall have the opportunity to make up school work missed and shall not have their class grades adversely affected for lack of class attendance or class participation due to the excused absence.

**Unexcused Absences**

Unless the Principal determines that extenuating circumstances exist, requests for date(s) falling within State or District testing periods shall not be granted. The Principal’s determination may be appealed to the Superintendent/designee whose decision may then be appealed to the Board under its grievance policy and procedures.

It shall be the responsibility of the custodial parent/guardian to notify the school in writing if release instructions are to be revised. If written instructions are not provided to the school, the student shall only be released to ride home on the assigned bus or with the custodial parent/guardian. Any student who leaves the school grounds at any time without proper authorization shall be subject to appropriate disciplinary action.

**Release Process**
If the student is to be picked up early, the custodial parent/guardian or designee shall report to the Principal's office and sign for the student's release.

Students who are at least eighteen (18) years of age may submit their own requests.

Religious Activities

Student Records (WCBE 09.14)
Data and information about students shall be gathered to provide a sound basis for educational decisions and to enable preparation of necessary reports.

Procedure to Be Established
The Superintendent shall establish procedures to promote effective notification of parents and eligible students of their rights under the Family Educational Rights and Privacy Act (FERPA) and to ensure District compliance with applicable state and federal student record requirements.
Disclosure of Records
Student records shall be made available for inspection and review to the parent(s) of a student or to an eligible student on request. Eligible students are those 18 years of age or older or those duly enrolled in a post-secondary school program. In general, FERPA rights pass to the eligible student upon either of those events. Parents may be provided access to the educational records of an eligible student 18 years old or older if the student is dependent under federal tax laws.

Upon written request, parents or eligible students may be provided copies of their educational records, including those maintained in electronic format, when necessary to reasonably permit inspection. Such copies shall be provided in a manner that protects the confidentiality of other students. A reasonable fee may be charged for copies.

District personnel must use reasonable methods to identify and authenticate the identity of parents, students, school officials, and any other parties to whom the District discloses personally identifiable information from education records.

In addition, considering the totality of the circumstances, the District may disclose information from education records to appropriate parties, including parents of eligible students, whose knowledge of the information is necessary to protect the health or safety of a student or another individual, if there is an actual, impending, or imminent articulable and significant threat to the health or safety of a student or other individual. In such instances, the basis for a decision that a health or safety emergency existed shall be recorded in the student's education records.

Authorized District personnel also may disclose personally identifiable information to the following without written parental consent:

- Officials of another school, school system, or institution of postsecondary education where the student seeks or intends to enroll or is already enrolled, so long as the disclosure is for purposes related to the student’s enrollment or transfer;
- Authorized representatives of a Kentucky state child welfare agency if such agency presents to the District an official court order placing the student whose records are requested under the care and protection of said agency. The state welfare agency representative receiving such records must be authorized to access the child's case plan.
- School officials (such as teachers, instructional aides, administrators) and other service providers (such as contractors, consultants, and volunteers used by the District to perform institutional services and functions) having a legitimate educational interest in the information.
Disclosure of Records
District and school officials/staff may only access student record information in which they have a legitimate educational interest.

Contractors, consultants, volunteers, and other parties to whom the District has outsourced services or functions may access student records provided they are:

- Under the District’s direct control with respect to the use and maintenance of education records; and
- Prohibited from disclosing the information to any other party without the prior written consent of the parent/eligible student, or as otherwise authorized by law.

Disclosure to Representatives for Federal or State Program Purposes
Personally identifiable student information may be released to those other than employees who are designated by the Superintendent in connection with audit, evaluation, enforcement, or compliance activities regarding Federal or State programs. Such designation must be executed in writing with the authorized representative and specify information as required by 34 C.F.R. Part 99.35.

Duty to Report
If it is determined that the District cannot comply with any part of FERPA or its implementing regulations due to a conflict with state or local law, the District must notify the Family Policy Compliance Office (FPCO) within forty-five (45) days of the determination and provide the text and citation of the conflicting law.

Student Directory Information
The Principal or Superintendent is authorized to release Board approved directory information.

Approved “directory information” shall be: student names and addresses, telephone numbers, date and place of birth, student’s school email address, major field of study, participation in officially recognized activities and sports, photograph/picture, grade level, weight and height of members of athletic teams, dates of attendance, degrees, honors and awards received, and most recent educational institution attended by student.

Any eligible student, parent, or guardian who does not wish to have directory information released shall notify the Superintendent in writing within thirty (30) calendar days after receiving notification of FERPA rights.

The District allows for disclosure of directory information only to specific parties for specific purposes. Such limitations are specified in the student directory information notification.
Unless the parent/guardian or secondary school student requests in writing that the District not release such information, the student’s name, address, and telephone number (if listed) shall be released to Armed Forces recruiters upon their request.

**Surveys of Protected Information**
The District shall provide direct notice to parents/guardian to obtain prior written consent for their minor child(ren) to participate in any protected information survey, analysis, or evaluation, if the survey is funded in whole or in part by a program of the U.S. Department of Education.

Parents/eligible students also shall be notified of and given opportunity to opt their child(ren) out of participation in the following activities:

1. Any other protected information survey, regardless of funding;
2. Any non-emergency, invasive physical exam or screening required as a condition of attendance, administered by the school or its agent, and not necessary to protect the immediate health and safety of a student, except for any physical exam or screening permitted or required under State law; and
3. Activities involving collection, disclosure, or use of personal information obtained from students for marketing or to sell or otherwise distribute the information to others.

Parents/eligible students may inspect, upon written request and prior to administration or use, materials or instruments used for the collection, disclosure, or use of protected information. PPRA requirements do not apply to evaluations administered to students in accordance with the Individuals with Disabilities Education Improvement Act (IDEIA).

**Students With Disabilities**
The District's special education policy and procedures manual shall include information concerning records of students with disabilities.

**Records Release to Juvenile Justice System**
Once a complaint is filed with a court-designated worker alleging that a child has committed a status offense or public offense, schools shall provide all records specifically requested in writing, and pertaining to that child to any agency that is listed as part of Kentucky's juvenile justice system in KRS 17.125 if the purpose of the release is to provide the juvenile justice system with the ability to effectively serve, prior to adjudication, the needs of the student whose records are sought. The authorities to which the data are released shall certify that any educational records obtained pursuant to this section shall only be released to persons authorized by statute and shall not be released to any other person without the written consent of the parent of the child. The request, certification, and a record of the release shall be maintained in the student's file.
**Juvenile Court Records**
Records or information received on youthful or violent offenders shall not be disclosed except as permitted by law. When such information is received, the Superintendent shall notify the Principal of the school in which the child is enrolled. The Principal shall then release the information as permitted by law. Only the Superintendent and school administrative, transportation, and counseling personnel or teachers or other school employees with whom the student is assigned to come in contact, shall be privy to this information, which shall be kept in a locked file when not in use and opened only with permission of the administrator. Notification in writing of the nature of offenses committed by the student and any probation requirements shall not become a part of the child's student record.

**Records of Missing Children**
Upon notification by the Commissioner of Education of a child's disappearance, the District in which the child is currently or was previously enrolled shall flag the record of such child in a manner that whenever a copy of or information regarding the child's record is requested, the District shall be alerted to the fact that the record is that of a missing child. Instead of forwarding the records of a child who has been reported as missing to the agency, institution, or individual making the request, the District shall notify the Justice Cabinet.

**Court Order/Subpoena**
Prior to complying with a lawfully issued court order or subpoena requiring disclosure of personally identifiable student information, school authorities shall make a documented effort to notify the parent or eligible student. In compliance with FERPA, notice to the parent is not required when a court order directs that disclosure be made without notification of the student or parent, or when the order is issued in the context of a dependency, neglect, or abuse proceeding in which the parent is a party. If the District receives such orders, the matter(s) may be referred to local counsel for advice.

---

**Notification of FERPA Rights**
The Family Educational Rights and Privacy Act (FERPA) affords parents and “eligible students” (students over 18 years of age or students who are attending a postsecondary institution) certain rights with respect to the student’s educational records. They are:

1. **The right to inspect and review the student’s education records within forty-five (45) days of the day the District receives a request for access.**

   Parents or eligible students should submit to the school Principal/designee a written request that identifies the record(s) they wish to inspect. The Principal will make arrangements for access and notify the parent or eligible student of the time and place where the record(s) may be inspected.

2. **The right to inspect and review logs documenting disclosures of the student’s education records.**
Except for disclosure to school officials, disclosures related to some judicial orders or lawfully issued Subpoenas, disclosures of directory information, and disclosure to the parent or eligible student, FERPA Regulations require the District to record the disclosure.

3. **The right to request the amendment of the student’s education records that the parent or eligible student believes are inaccurate, misleading, or in violation of the student’s privacy or other rights.**

Parents or eligible students may ask the District to amend a record that they believe is inaccurate, misleading, or in violation of privacy or other rights. They should write the school Principal, clearly identify the part of the record they want changed, and specify why it is inaccurate, misleading, or in violation of their privacy or other rights. If the District decides not to amend the record as requested by the parent or eligible student, the District will notify the parent or eligible student of the decision and advise him/her of the right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

4. **The right to provide a written consent prior to disclosure of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.**

Exceptions that permit disclosure without consent include:

a. Disclosure to school officials with legitimate educational interests. A “school official” is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a volunteer, or an outside person or company with whom the District has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent of student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his/her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his/her professional responsibility to the District.

c. Disclosure of information to those whose knowledge of such information is necessary to respond to an actual, impending, or imminent articulable and significant health/safety threat.
d. Disclosure to state and local educational authorities and accrediting organizations, subject to requirements of FERPA regulations.

5. The right to notify the District in writing to withhold information the Board has designated as directory information as listed in the annual directory information notice the District provides to parents/eligible students. To exercise this right, parents/eligible students shall notify the District by the deadline designated by the District.

6. The right to prohibit the disclosure of personally identifiable information concerning the student to recruiting representatives of the U. S. Armed Forces and its service academies, the Kentucky Air National Guard, and the Kentucky Army National Guard.

Unless the parent or secondary school student requests in writing that the District not release Information, the student’s name, address, and telephone number (if listed) shall be released to Armed Forces recruiters upon their request.

7. The right to file a complaint with the U. S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

```
Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW

**Use of Physical Restraint and Seclusion (WCBE 09.2212)**

Use of physical restraint or seclusion by school personnel is subject to 704 KAR 007:160. However, nothing in this policy prohibits the exercise of law enforcement duties by sworn law enforcement officers.

**Definitions**
- Physical Restraint means a personal restriction that immobilizes or reduces the ability of a student to move the student’s torso, arms, legs, or head freely.
- Seclusion means the involuntary confinement of a student alone in a room or area from which the student is prevented from leaving, but does not mean classroom timeouts, supervised in-school detentions, or out-of-school suspensions.
Physical Restraint

All School Personnel

Use of physical restraint by all school personnel is permitted when a student’s behavior poses an imminent danger of physical harm to self or others in clearly unavoidable emergency circumstances. In such situations, staff who have not had core team training may physically restrain students, but shall summon core trained school personnel as soon as possible.

In all situations involving use of physical restraint (including restraint by core trained personnel):

- The student shall be monitored for physical and psychological well being for the duration of the restraint.
- Personnel shall use only the amount of force reasonably believed necessary to protect the student or others from imminent danger of physical harm.

Core Trained Personnel

School personnel who have undergone core team training may also use physical restraint after less restrictive behavioral interventions have been ineffective in stopping misbehavior as noted below:

1. In nonemergency circumstances when a student’s behavior poses an imminent danger of physical harm to self or others;
2. As provided in KRS 503.050 (including when personnel believe physical restraint is necessary to protect themselves against the use or imminent use of unlawful physical force);
3. As provided in KRS 503.070 (including when personnel believe physical restraint is necessary to protect a third person against the use or imminent use of unlawful physical force);
4. To prevent property damage as provided in KRS Chapter 503 (including when personnel believe physical restraint is immediately necessary to prevent intentional or wanton property destruction, theft, or a felony involving the use of force); and
5. As provided in KRS 503.110 (including when personnel believe physical restraint is necessary to maintain reasonable discipline in a school, class, or other group, and the force used is not designed to cause or known to create a substantial risk of causing death, serious physical injury, disfigurement, extreme pain, or extreme mental distress).

Seclusion

Seclusion may be implemented only if: the student’s behavior poses an imminent danger of physical harm to self or others; less restrictive interventions have been ineffective in stopping the imminent danger of physical harm; the student is monitored visually for the duration of the seclusion; and staff are appropriately trained to use seclusion.
Parameters
The Board has established this policy and related procedures addressing use of physical restraint and seclusion that are designed to promote the safety of all students, school personnel, and visitors. As required by 704 KAR 007:160, school personnel and parents shall be made aware of how to access this policy and related procedures. Methods of notification may include, but are not limited to, publication in the District’s local code of acceptable behavior and discipline and District employee handbooks.

Training
Training of personnel on use of physical restraint and seclusion shall be provided as required by 704 KAR 007:160:

- All school personnel shall be trained annually to use an array of positive behavioral supports and interventions and as further required by 704 KAR 007:160.
- A core team of selected school personnel designated to respond to dangerous behavior and to implement physical restraint of students shall receive additional yearly training in the areas required by 704 KAR 007:160. (Exception: Core team members who are school resource officers or other sworn law enforcement officers are not required to undergo this training.)

Required Procedures
The Superintendent/designee shall develop procedures to be followed during and after each use of physical restraint or seclusion to include the following:

1. Documentation of the event in the student information system;
2. Notice to parents; and
3. A process for the parent or emancipated youth to request a debriefing session.

Notification Requirements
The Principal of the school shall be notified as soon as possible when seclusion or physical restraint is used, but no later than the end of the school day on which it occurs.

Following each incident of physical restraint or seclusion of a student and if the student is not an emancipated youth, the parent of the student shall be notified of the incident either verbally or through electronic communication as soon as possible within twenty-four (24) hours of the incident. If the parent cannot be reached during that time frame, a written communication shall be mailed via U. S. mail.

If death, substantial risk of death, extreme physical pain, protracted and obvious disfigurement or protracted loss or impairment of the function of a bodily member, organ, or mental faculty results from use of physical restraint or seclusion, the Superintendent/designee shall notify the Kentucky Department of Education and local law enforcement within twenty-four (24) hours.
Debriefing Session
If the parent or emancipated student requests a debriefing session following use or parental notification of the use of physical restraint or seclusion, individuals who are to participate shall be those specified by state regulation.

A requested debriefing session shall occur as soon as practicable, but no later than five (5) school days following receipt of the request from the parent or emancipated youth, unless a meeting is delayed by written mutual agreement of the parent/emancipated student and the school.

The debriefing session shall address elements specified by state regulation, and all documentation used during the session shall become part of the student’s education record.

Parent Complaints
Parents may submit a complaint regarding the physical restraint or seclusion of their child using the Board’s grievance policy and procedures. On receipt of a complaint, the District and school shall investigate the circumstances surrounding the physical restraint or seclusion, make written findings, and, where appropriate, take corrective action.

Statements From Physician
The Superintendent/designee shall review and respond to any statement received from a student’s licensed physician that the student is not to be subjected to physical restraint.

Documentation
All incidents involving physical restraint or seclusion shall be documented by a written record of each use by the end of the next school day, and the documentation shall be maintained in the student’s education record. In addition, each entry shall be informed by an interview with the student and include information required by 704 KAR 007:160.
