PREFACE

The District Student Handbook has been adopted by the Warren County Board of Education in an effort to inform students, parents, school faculty, staff, and the school community of the policies relating to students of the Warren County Public School District.

Under the Kentucky guidelines for School Based Decision Making councils, schools have authority to establish additional policies within the framework of Board established rules and regulations. **Please check with your child's school for specific rules and regulations.**

LEGAL AUTHORITY

**of the**

WARREN COUNTY PUBLIC SCHOOLS

BOARD OF EDUCATION

The constitution of the Commonwealth of Kentucky gives the Kentucky General Assembly the power by appropriate legislation to provide for an efficient system of common schools throughout the state. The Warren County Board of Education, a body politic and corporate, is empowered by authority of Kentucky Revised Statute 160.160 to do all things necessary to accomplish the purposes for which it was created.

The Warren County Board of Education discharges all duties and obligations specified by Kentucky Revised Statutes and by administrative regulations adopted by the State Board of Education. Matters not covered by these statutes and regulations are administered in accordance with the intent of the law and within the context of the highest possible ethical and professional standards.

MISSION STATEMENT

The mission of the Warren County Public Schools is to prepare our students to think independently, to learn throughout life, and to be happy, healthy, productive members of a democratic society.

RIGHTS AND RESPONSIBILITIES

**Student Rights and Responsibilities**

Students have a right to a quality education, within the resources available to the district, which meet their individual needs.

Students have a responsibility to complete assignments, participate in classroom instruction and respect the rights of others.

**Teacher Rights and Responsibilities**

Teachers have a right to receive respect and support from their co-workers, administrators, pupils, and parents/guardians of pupils.

Teachers have a responsibility to present educational materials and the experiences appropriate to the student’s abilities in their respective classrooms.

**Parent/Guardian Rights and Responsibilities**

Parents/guardians have a responsibility to instill in their child a sense of responsibility and respect and a personal need for an education.

(A more complete listing of Parent/Guardian Rights and Responsibilities is on file in the Central Office.) Our district receives federal funds for Title I programs.

**Title I Parent Involvement Policy – This policy is being reviewed and/or revised by the WCPS Board of Education**

This policy and the plan to implement it, have been developed jointly and in agreement with, and will be distributed to, parents of students participating in the Title I program. Parents shall be notified of the policy in an understandable and
uniform format and, to the extent practicable, provided in a language that parents can understand. This policy shall be made available to the local community and updated periodically to meet the changing needs of parents and the school.

Any district with an allocation of more than $500,000 must set aside 1% of their allocation to carry out the required parent involvement activities. At least 95% of the funds set aside for parent involvement activities must be distributed to the schools. Districts providing Title I services to private schools must reserve funds for parent involvement activities for parents of participating private school children.

**Building Capacity for Involvement**

In order to ensure effective parent involvement for building capacity the district must:

- Assist parents in understanding Kentucky’s assessment and their child’s performance.
- Provide training and materials to help parents work with their children to improve their achievement (i.e. literacy and technology training).
- Train staff with the assistance of parents on how to reach out to, communicate and work with parents as equal partners in their children’s education.
- Implement and coordinate parent programs.
- Inform parents about school activities and meetings in a language they can understand.
- Coordinate and integrate parent involvement programs with Head Start, the Home Instruction Program for Preschool Youngsters, the Parent as Teachers Program, and public preschool to support parents in helping in their children’s education.

The district may:

- Involve parents in the development of training for staff to improve the effectiveness of the training.
- Provide transportation and childcare to enable parents to participate in school related meetings and trainings.
- Offer meetings at a variety of times and conduct in-home conferences to encourage parent involvement.
- Adopt and implement model approaches to improve parent involvement and provide support for parent involvement as requested by parents.
- Establish a district-wide parent advisory council and involve community organizations and businesses in parent involvement activities.
- Train parents to help promote the involvement of other parents.
- Provide literacy training, if no other funds are available for training.

**District Level Requirements**

**Annual Evaluation**

An annual evaluation of the effectiveness of the district’s Parent Involvement Policy and parent involvement activities must be conducted. The evaluation should determine whether:

- The academic quality of the school has improved.
- Parent participation has increased.
- Barriers exist that hinder greater participation by parents.

The evaluation may be conducted through a written survey, a telephone survey or in person. Districts must document and summarize the evaluation findings and how the information will be used to improve the parent involvement program.

**District Parent Involvement Policy**

A written parent involvement policy at the district level must be jointly developed, agreed upon, and distributed to parents of participating children. The district policy must be reviewed by parents and revised as needed on an annual basis. Documentation of the review must be on file in the Title I Coordinator’s Office. A written district parent involvement policy must establish expectations for parent involvement and describe how the district will:

1. Involve parents in the joint development of the Comprehensive District Improvement Plan and in the process of school review and improvement.
2. Provide the coordination, technical assistance and other support necessary to assist participating Title I schools in planning and implementing effective parent involvement to improve student academic achievement and school performance.
3. Build the schools’ and parent’s capacity for more effective parent involvement.
4. Coordinate and integrate parent involvement strategies with Head Start, Parents as Teachers, and Home Instruction Programs for Preschool Youngsters.
5. Conduct an annual evaluation of the content and effectiveness of the Parent Involvement Policy in improving the academic quality of the schools including identifying barriers to greater participation of parents, in particular: low-socioeconomic, limited English proficiency, limited literacy, or minority parents.

6. Use the evaluation findings to improve the parent involvement program and revise the Parent Involvement Policy as needed.

**School Level Requirements**

Each Title I school must jointly develop, agree upon and distribute to parents a written parental involvement policy. All Title I participating schools must develop a school-parent compact jointly with parents, and must involve parents, in an organized, ongoing and timely way, in the planning, review, and improvement of the Title I program. Title I schools must provide parents with timely information about the Title I program; a description and explanation of the curriculum, the forms of academic assessment including a definition of proficiency; opportunities for regular meetings and to participate in decisions relating to the education of their children and the opportunity to respond to any suggestions. An annual evaluation of the effectiveness of the school’s Parent Involvement Policy and parent involvement activities must be conducted.

**Principal/Designated Administrator Rights and Responsibilities**

Principals/Designated Administrators have a right to expect all participants in the schooling process to comply with school and Board of Education policy.

Principals/Designated Administrators have a responsibility to help create and maintain a positive school climate, which allows for respect of the rights of all participants in the schooling process.

**ADMINISTRATIVE REGULATIONS**

**Authority Over Students**

Pupils of the several schools of the district are under the authority of the respective administrators and teachers therein while in school and while in school buildings, on school grounds, participating in co-curricular and extra-curricular activities, and while going to and returning from school or until properly released. (KRS161.180)

**Race Relations and Cultural Diversity**

The Warren County Board of Education will not tolerate acts of bullying, harassment or discrimination. It will not tolerate a climate of hostility created by use of language, conduct or symbols which are commonly understood to convey hatred, contempt or prejudice due to race, color, national origin, age, religion, culture, marital status, sex, or disability.

The Warren County Board of Education shall in its policies and actions deal swiftly and with determination to discipline any offenders under its supervision.

The Warren County Board of Education is committed to promoting racial harmony among its students, staff, and community in a manner that demonstrates the value of multicultural experience.

The Warren County Board of Education and staff shall continue to provide curricular and extra-curricular programs and opportunities for all students to acquire positive attitudes toward racial, cultural, and religious diversity.

The Warren County Board of Education is dedicated to equal access to all programs and opportunities for all students to reach their full potential.

**Assessment of Student Progress (WCBE 02.441)**

The Warren County Public Schools shall administer all state required assessments.

**Review of Assessment Data**

In keeping with the school improvement planning process and timeline, the school council shall review student assessment data provided annually by the Kentucky Department of Education. After reviewing the data, the council shall adopt, modify, or revise the school’s plan to assist each student in making progress toward proficiency. This process shall address achievement gaps between various groups of students as required by law. In addition, the plan shall be submitted to the Superintendent and Board for review. In a school without a council, the Principal shall complete the review and planning process with the involvement of parents, faculty, and staff.

**Individual Reports**

Each year, an individual student report shall be provided to parents of students in grades three through eight (3-8) in accordance with statutory requirements. Teachers and parents/guardians of each primary student shall be informed of results from reading and mathematics diagnostic assessments and prompts.
Volunteers (03.6)

**Definition**
Volunteers are persons who do not receive compensation for assisting in school or District programs. Volunteers are encouraged to use their time and effort to support school and District programs. The Superintendent shall develop procedures that encourage volunteers to assist in school and/or District programs and to facilitate effective communication with persons who volunteer.

Teacher education students or students enrolled in an educational institution and who participate in observations and educational activities under direct supervision of a local school teacher or administrator in a public school shall not be considered volunteers.

**Supervision**
All volunteers shall provide assistance only under the direction and supervision of a member of the professional administrative and teaching staff.

Volunteers who assist in the District on a scheduled and/or continuing basis shall be provided with the same liability insurance coverage as a District employee and shall be provided with a written task description detailing responsibilities and expectations, as well as specific qualifications that may be required.

**Records Check**
The District shall conduct, at District expense, a state criminal records check on all volunteers who have contact with students on a regularly scheduled and/or continuing basis, or who have supervisory responsibility for children at a school site or on school-sponsored trips.

Pursuant to KRS 160.380, the Superintendent/designee also may require volunteers to submit to a national criminal history background check for safety reasons. With prior approval of the Superintendent/designee, the background checks will be conducted at District expense. Otherwise, except as stated previously, the volunteer must pay for the background checks.

No volunteer shall be utilized to supervise students, or deemed to have the authority to supervise students, unless the volunteer has been designated to supervise students by the Principal and approved by the Superintendent/designee, and the volunteer has undergone the required records check.

**Work-Based Site Supervisors**
Work-based learning site supervisors are considered volunteers. Pursuant to KRS 160.380 and KRS 161.148, prior to being assigned to supervise a student for more than one (1) day in a work-based learning experience, the site supervisor shall have undergone a state criminal background check either as required by their employer at time of employment or within the past twelve (12) months, whichever is the more recent.

**Orientation**
The Superintendent/designee shall develop orientation materials to be provided to all volunteers who have contact with students on a regularly scheduled or continuing basis. These materials shall include, but not be limited to, pertinent policies and safety and emergency procedures.

---

**Conduct on Bus (WCBE 6.34)**

**Principal Responsible**
The Principal shall oversee the deportment of his students who ride on the school bus and who walk to and from the school.

**Reporting of Violations**
Bus drivers shall promptly report in writing any violation of District policy or school rules to the Principal.

**Discharge of Pupils from Bus**
The driver is in charge of his bus, and his first responsibility shall be to the safe transportation of his passengers. In the event that one or more pupils are behaving in a threatening or violent manner or in such a way as to endanger the safety of other pupils on the bus, the driver shall stop the bus and contact the bus garage or Superintendent’s designee to send someone to pick up the student or, if the behavior warrants, the driver shall call law enforcement. If calls for assistance are unsuccessful, the driver is authorized to order the offending student from the bus according to guidelines established in procedures developed by the Superintendent and if the student is in the sixth (6th) grade or
above. In the event a pupil is discharged for disciplinary reasons, the driver shall make every effort to do so near a house or open business establishment. At the first reasonable opportunity, the driver shall notify the Principal of the school where the pupil attends or the Superintendent and the student’s parent or legal guardian.

**WITHOLDING OF RIDING PRIVILEGES**

The Principal is authorized to withhold bus-riding privileges up to a maximum of ten (10) school days per occurrence in the case of habitual or serious conduct violations. The Principal shall notify the parents in cases where bus-riding privileges have been withheld.

The Superintendent or his designee may withhold bus-riding privileges up to the remainder of the school year.

**RESTITUTION OF DAMAGES**

The parents or guardians may be held responsible for restitution of any damages, beyond normal usage, inflicted by their child.

**STUDENTS WITH SPECIAL NEEDS**

Students with special needs who exhibit inappropriate conduct shall be managed in accordance with their Individual Education Plan (IEP) and/or 504 Plan and the legal obligations and standards adopted by the Board.

---

**Preschool Education (WCBE 08.1114)**

The Board shall provide a developmentally appropriate preschool education program in compliance with applicable statutes and administrative regulations.

Plans for the preschool program shall include supervision guidelines consistent with the mental and physical characteristics of preschool. Maximum group size for eligible children shall be (20) children. The staff ratio in the classroom shall consist of one (1) adult for a maximum of ten (10) children pursuant to staff qualifications established in Section 7 of this administrative regulation. Consideration shall be given to increasing the number of staff or decreasing the group size depending upon the needs of the children, including the needs of children with disabilities. An adult shall not be left alone with more than ten (10) preschool children. The local school district shall have a written policy for assistance from another adult if one (1) adult is responsible for a group of children.

---

**Graduation Requirements (WCBE 08.113)** This policy is being reviewed and/or revised by the WCPS Board of Education

In a school operating under a six or seven period day, block schedule or hybrid schedule, and in support of the student development goals set out in KRS 158.6451 and the Kentucky Academic Expectations, students must complete a minimum of twenty-two (22) credits including demonstrated performance-based competency in technology, and all other state and local requirements in order to graduate from high school in the District.

Additional standards-based learning experiences shall align to the student’s individual learning plan and shall
consist of standards-based content. The required credits and demonstrated competencies shall include the following minimum requirements:

1. Four (4) Language Arts credits (English I, II, III, IV) to be taken each year of high school;
2. Three (3) Social Studies credits;
3. Four (4) Mathematics credits, (Algebra I, Algebra II, and Geometry required) with one mathematics course taken each year of high school to ensure readiness for postsecondary education or the workforce based on the student’s individual learning plan;
4. Three (3) Science credits;
5. One-half (.5) Health credit;

In keeping with statutory requirements, the District shall accept for credit toward graduation and completion of high school course requirements an advanced placement or a high school equivalent course taken by a student in grades 5, 6, 7, or 8 if that student attains performance levels expected of high school students in the District as determined by achieving a score of "3" or higher on a College Board Advanced Placement examination or a grade of "B" or better in a high school equivalent.²

Students in a District alternative school must complete the number of credits required by the sending school or the minimum of twenty-two (22) required by the Kentucky Department of Education.

**PERFORMANCE BASED CREDIT**

In addition to Carnegie units, students may earn credit toward high school graduation through the District’s standards-based, performance-based credit system that complies with requirements of Kentucky Administrative Regulation. Procedures for developing and amending the system shall address the following:
1. Conditions under which high school credit will be granted under the system that allow students to demonstrate proficiency and earn credit for learning acquired outside the normal classroom setting, outside of school, or in prior learning;

   PERFORMANCE-BASED CREDIT MAY BE EARNED WHILE THE STUDENT IS STILL "IN SCHOOL," BUT THE INSTRUCTIONAL SETTING WILL LOOK DIFFERENT FROM A TRADITIONAL "SEAT TIME" ENVIRONMENT.

2. Performance descriptors and their linkages to State content standards and academic expectations;

   At the high school level, performance descriptors and evaluation procedures shall be established to determine if the content and performance standards have been met.

3. Assessments and the extent to which state-mandated assessments will be used;

4. An objective grading and reporting process; and

5. Criteria to promote and support school and community learning experiences, such as internships and cooperative learning, in support of a student’s individual learning plan. Such experiences shall be supervised by qualified instructors and aligned with State and District content and performance standards.

Students may receive credit toward graduation requirements by successfully completing performance-based credits in accordance with the following guidelines:

1. Students may earn performance-based credit:
   a. as credit recovery (to complete the eight (8) semester high school course of study);
   b. if the student is taking a performance-based course for acceleration purposes; or
   c. if the student is taking a course designated as “performance-based”.

2. In addition to 1 (a), (b), or (c) above, students taking performance-based courses must be enrolled in the District’s Lighthouse Academy High School, Greenwood High School, South Warren High School, Warren Central High School, Warren East High School, or any of their respective feeder schools.

   Any District school choosing to participate in a performance-based credit system will develop performance descriptors and assessments for measuring student progress. Participating schools will determine in which content areas students may earn credits.

   The District Student Handbook and each high school student handbook shall include complete details concerning specific graduation requirements.

OTHER PROVISIONS

The Board may award a diploma to a student posthumously indicating graduation with the class with which the student was expected to graduate.

Consistent with the District’s graduation practices for all students, an alternative high school diploma shall be awarded to students with disabilities in compliance with applicable legal requirements. In addition, former students may submit to the Superintendent a request that the District provide them with an alternative high school diploma to replace the certificate of attainment they received at time of graduation from the District.3

Beginning with the 2014-2015 school year, students who complete an early graduation high school program and meet all applicable legal requirements shall be awarded an Early Graduation Scholarship Certificate. Students planning to complete an early graduation program shall notify the Principal of their intent prior to the beginning of grade nine (9) or as soon thereafter as the intent is known.4

Upon recommendation of the Assistant Superintendent for Instructional Services and approval of the Board, the Warren County Public Schools will issue a District diploma to students meeting all state and District graduation requirements but not being enrolled in a District high school at the date of graduation and/or not having been enrolled in a District high school either the first or second semester of the school year.

Students enrolled in a Warren County Public High School before the 1999-2000 school year who do not finish high school on time may receive a diploma by meeting state-mandated requirements at the time of graduation.

Diplomas for Veterans

In keeping with statute and regulation, the Board shall award an authentic high school diploma to an honorably discharged veteran who did not complete high school prior to being inducted into the United States Armed Forces during World War II, the Korean conflict, or the Vietnam War.1
Alternative Credit Options (WCBE 08.1131)

In addition to regular classroom-based instruction, students may earn credit through the following means.

**Credit Recovery Courses**

High school students enrolled in an A1 school may earn, through credit recovery courses, academic credit to be applied toward graduation requirements in accordance with the following guidelines:

1. Each unit requires written approval of the Principal to be applied toward graduation requirements.
2. Credit may be earned only to make up failed subjects in order to complete the eight (8) - semester high school course of study. The Principal/designee may consider other special circumstances;
3. Only approved courses and curricular programs offered by the high school will be accepted; and
4. An official record of the final grade must be recorded on the student transcript.

Unless otherwise recommended by the Superintendent and approved by the Board, student or their parents/guardians shall be responsible for all related expenses including tuition and textbooks.

**Online Courses**

Students may earn units of academic credit to be applied toward graduation requirements by completing online courses offered through agencies approved by the Board. Credit from online courses may be earned under one of the following circumstances:

1. The course is not currently offered at the student’s high school;
2. The course is offered at the high school, but the student will not be able to take it due to an unavoidable scheduling conflict that would keep the student from meeting graduation requirements;
3. The Principal, with agreement from the student's teachers and parents/guardians, determines the student requires a differentiated or accelerated learning environment pursuant to the following guidelines:
   a. The express approval of the Principal/designee shall be obtained before a student enrolls in a virtual course;
   b. The school must receive an official record of the final grade before credit toward graduation will be recognized; and
   c. Students taking such courses must be enrolled in the District.

The District shall recognize only those online courses that meet the international standards for online teachers, courses, and programs that have been adopted by the Kentucky Department of Education.

**Virtual Online Courses (continued)**

As determined by school/council policy, students applying for permission to take an online course shall complete prerequisites and provide teacher/counselor recommendations to confirm the student possesses the maturity level needed to function effectively in an online learning environment. Online courses may be subject to review by the Superintendent/designee for conformance with Kentucky Core Academic Standards and District graduation requirements.

Provided online courses are part of the student’s regular school day coursework and within budgetary parameters, the tuition fee and other costs for an online course shall be borne by the District for students enrolled full-time from funds that have been allocated to the school. The Superintendent shall determine, within the budget adopted by the Board, whether additional funding shall be granted, based on supporting data provided by the Principal.

Textbooks will be provided by the school.

**College Credit/Dual Credit**

To differentiate/accelerate the curriculum to meet the needs of students, the District shall recognize courses from post-secondary education institutions. Students will receive one (1) high school credit for every three (3) semester hours of college work. Grades will be calculated in non-weighted form for class rank and GPA and included in the student’s transcript. Failure to complete the course shall be recorded. Credit may be earned in accordance with the following requirements:
1. The student must present documentation supporting enrollment in the post-secondary institution;
2. The course is not offered at the high school;
3. The course is offered at the high school, but the student will not be able to take it due to an unavoidable scheduling conflict;
4. The high school must receive an official record of the final grade before credit toward graduation will be recognized; and
5. Students taking such courses must be enrolled in the District.
6. All college courses taken will be listed on the student transcript at the high school level for dual credit purposes.
7. The building Principal may make exceptions to these requirements as extenuating circumstances arise: the exceptions shall be made only with prior approval from the Principal.

Students shall be responsible for all related costs and transportation.

In compliance with applicable statutes and administrative regulations, the District shall provide appropriate multiple service options in an environment that addresses the abilities, interests and needs of students eligible for services in one (1) or more of the following categories: general intellectual aptitude; specific academic aptitude; creative or divergent thinking; psychosocial or leadership skills; and visual or performing arts.

The definitions specified in 704 KAR 003:285 shall be used in the operation of the District’s programs for gifted and talented students.

**Identification/Diagnosis and Eligibility**

In compliance with 704 KAR 003:285, the Superintendent/designee shall develop strategies to address identification and diagnosis of the strengths, behaviors and talents of these students. Determination of eligibility for gifted and talented services shall be based on the student’s individual needs, interests and abilities. Consideration shall be given to contributing factors such as environmental and cultural factors, economic disadvantage or underachievement, racial or ethnic minority, underachievement, membership or identified disability as defined in KRS 157.200.

Based on data gathered by designated school personnel (e.g. Counselor, Gifted/talented teacher, regular classroom teacher), a District selection/placement committee appointed by the Superintendent shall determine those students who are eligible for gifted education services and the level of services to be provided. This committee shall meet in October and February.

Prior to selection or formal identification and placement of a student, the District shall obtain parental or guardian permission before administering an individual test to the student given as a follow-up to a test routinely administered to all students and used in formal identification. If it is determined that their child is eligible for gifted education services, parents/guardians also shall be notified of the services. The individualized Gifted Student Service Plan shall be developed and reviewed with parents/guardians at least once each semester. - A variety of appropriate options for grouping by ability, interest and/or need,
- Multiple service options reflecting continuous progress through a logical sequence of learning,
- Means of obtaining parental input for use in determining appropriate services,
- A Gifted Student Service Plan format that provides for matching a formally identified gifted student’s interests, needs, and abilities to differentiated service options, and

Neither the primary program, nor any grade level shall be served by only one (1) gifted education service option.

**PERSONNEL**

The Superintendent shall appoint a Gifted/Talented Coordinator who shall oversee the operation of the District’s Gifted and Talented program and assist schools in implementing the provisions of this policy. The Gifted/Talented Coordinator shall oversee the expenditure of funds for gifted education to ensure they are used to provide direct services to identified students.

</tr>
</thead>
<tbody>
<tr>
<td>(Acceptable Use Policy)</td>
</tr>
</tbody>
</table>
The Board supports reasonable access to various information formats for students, employees and the community and believes it is incumbent upon users to utilize this privilege in an appropriate and responsible manner as required by this policy and related procedures, which apply to all parties who use District technology.

**SAFETY PROCEDURES AND GUIDELINES**

The Superintendent shall develop and implement appropriate procedures to provide guidance for access to electronic media. Guidelines shall address teacher supervision of student computer use, ethical use of electronic media (including, but not limited to, the Internet, e-mail, and other District technological resources), and issues of privacy versus administrative review of electronic files and communications. In addition, guidelines shall prohibit utilization of networks for prohibited or illegal activities, the intentional spreading of embedded messages, or the use of other programs with the potential of damaging or destroying programs or data.

Students shall be provided instruction about appropriate online behavior, including interacting with other individuals on social networking sites and in chat rooms and cyber bullying awareness and response.

Internet safety measures, which shall apply to all District-owned devices with Internet access or personal devices that are permitted to access the District’s network, shall be implemented that effectively address the following:

- Controlling access by minors to inappropriate matter on the Internet and World Wide Web;
- Safety and security of minors when they are using electronic mail, chat rooms, and other forms of direct electronic communications;
- Preventing unauthorized access, including ‘hacking’ and other unlawful activities by minors online;
- Unauthorized disclosure, use and dissemination of personal information regarding minors; and
- Restricting minor’s access to materials harmful to them.

A technology protection measure may be disabled by the Board’s designee during the use by an adult to enable access for bona fide research or other lawful purpose. The District shall provide reasonable public notice of, and at least one (1) public hearing or meeting to address and communicate its initial Internet safety measures.

Specific expectations for appropriate use of electronic resources shall be reflected in the District’s code of acceptable behavior and discipline including appropriate orientation for staff and students.

**PERMISSION/AGREEMENT FORM**

Students will be granted access to District owned electronic resources upon signed agreement with the policies and procedures outlined in the District’s Student Handbook. The student’s parent/legal guardian (or the student who is at least 18 years old) must provide the Superintendent or designee with a written request to rescind or modify this agreement.

A written parental request shall be required prior to the student being granted independent access to electronic media involving District technological resources or the Kentucky Department of Education student’s electronics mail resources.

The required permission/agreement form, which shall specify acceptable uses, rules of on-line behavior, access privileges, and penalties for policy/procedural violations, must be signed by the parent or legal guardian of minor students (those under 18 years of age) and also by the student. This document shall be kept on file as a legal, binding document. In order to modify or rescind the agreement, the student’s parent/guardian (or the student who is at least 18 years old) must provide the Superintendent or designee with a written request.

This document shall be kept in the student’s permanent record folder as a legal, binding document until graduation. In order to modify or rescind the agreement, the student’s parent/guardian (or the student who is at least 18 years old) must provide the Superintendent or designee with a written request.

**EMPLOYEE USE**

Employees shall not use a code, access a file, or retrieve any stored communication unless they have been given authorization to do so. (Authorization is not required each time the electronic media is accessed in performance of one’s duties.) Each employee is responsible for the security of his/her own password.

Employees are encouraged to use electronic mail and other District technology resources to promote student learning and communication with the home and education-related entities. If those resources are used, they shall be used for purposes directly related to work-related activities.

Technology-based materials, activities and communication tools shall be appropriate for and within the range of the knowledge, understanding, age and maturity of students with whom they are used.
District employees and activity sponsors may set up blogs and other social networking accounts using District resources and following District guidelines to promote communications with students, parents, and the community concerning school-related activities and for the purpose of supplementing classroom instruction.

Networking, communication and other options offering instructional benefits may be used for the purpose of supplementing classroom instruction and to promote communications with students and parents concerning school-related activities.

In order for District employees and activity sponsors to utilize a social networking site for instructional, administrative or other work-related communication purposes, they shall comply with the following:

1. They shall request prior permission in writing from the Superintendent/designee.
2. If permission is granted, staff members will set up the site following any District guidelines developed by the Superintendent or designee and school guidelines developed by the Principal or designee.
3. Guidelines may specify whether access to the site must be given to school/District technology staff.
4. If written parental consent is not otherwise granted through AUP forms provided by the District, staff shall notify parents of the site and obtain written permission for students to become “friends” prior to the students being granted access. This permission shall be kept on file at the school as determined by the Principal.
5. Once the site has been created, the sponsoring staff member is responsible for the following:
   a. Monitoring and managing the site to promote safe and acceptable use; and
   b. Observing confidentiality restrictions concerning release of student information under state and federal law.

Staff members are discouraged from creating personal social networking sites to which they invite students to be friends. Employees taking such action do so at their own risk.

All employees shall be subject to disciplinary action if their conduct relating to use of technology or online resources violates this policy or other applicable policy, statutory or regulatory provisions governing employee conduct. The Professional Code of Ethics for Kentucky School Certified Personnel requires certified staff to protect the health, safety, and emotional well being of students and confidentiality of student information. Conduct in violation of this Code, including, but not limited to, such conduct relating to the use of technology or online resources, must be reported to Education Professional Standards Board (EPSB) as required by law and may form the basis for disciplinary action up to and including termination.

**Community Use**

On recommendation of the Superintendent/designee, the Board shall determine when and which computer equipment, software, and information access systems will be available to the community.

Upon request to the Principal/designee, community members may have access to the Internet and other electronic information sources and programs available through the District’s technology system, provided they attend any required training and abide by the rules of usage established by the Superintendent/designee.

**Disregard of Rules**

Individuals who refuse to sign required acceptable use documents or who violate District rules governing the use of District technology shall be subject to loss or restriction of the privilege of using equipment, software, information access systems, or other computing and telecommunications technologies.

Employees and students shall be subject to disciplinary action, up to and including termination (employees) and expulsion (students) for violating this policy and acceptable use rules and regulations established by the school or District.

**Responsibility for Damages**

Individuals shall reimburse the Board for repair or replacement of District property lost, stolen, damaged, or vandalized while under their care. Students or staff members who deface a District public or private web site or otherwise make unauthorized changes to a web site shall be subject to disciplinary action, up to and including expulsion and termination, as appropriate.

**Responding to Concerns**

School officials shall apply the same criterion of educational suitability used to review other educational resources when questions arise concerning access to specific databases or other electronic media.

**Audit of Use**

Users with network access shall not utilize District resources to establish electronic mail accounts through third-party providers or any other nonstandard electronic mail system.
The Superintendent/designee shall establish a process to determine whether the District’s education technology is being used for purposes prohibited by law or for accessing sexually explicit materials. The process shall include, but not be limited to:

1. Utilizing technology that meets requirements of Kentucky Administrative Regulations and that blocks or filters internet access for both minors and adults to certain visual depictions that are obscene, child pornography, or, with respect to computers with Internet access by minors, harmful to minors;
2. Maintaining and securing a usage log; and
3. Monitoring online activities of minors.

Retention of Records for E-Rate Participants
Following initial adoption, this policy and documentation of implementation shall be retained for at least five (5) years after the last day of service in a particular funding year.

Emergency Closings (WCBE 08.33)
When, in the judgment of the Superintendent, an emergency exists, he shall close the schools or reduce the hours of the school day as appropriate in the interest of the health and safety of the pupils.

Weather-Related Schedule Changes
Warren County schools may be cancelled due to weather-related situations. Radio and television stations are notified by 6:00 A.M. and are requested to broadcast the announcement as often as possible between 6:00 and 8:00 A.M. Also, there could be a one or two hour delay in the opening of schools. Students, however, may be dropped off at their school on their regular time schedules, as there will be school staff available to supervise them.

Severe weather may also cause schools to end the school day early. A minimum of two hours notification is necessary for personnel to be available to transport students home. Central Office will notify all schools of any early closings prior to the media announcement, which will be made by the Superintendent.

Parents of preschool children should always listen carefully for any special arrangements or cancellations during severe weather.

School of Residence (WCBE 09.11) This policy is being reviewed and/or revised by the WCPS Board of Education

Assigned
All pupils shall be assigned by geographic attendance districts and will attend the school designated to serve their area of residence. Specific areas served by each attendance district will be marked on a map in the central administration office and posted on the District website. The Board may revise attendance districts from time to time to attain maximum utilization of school facilities. The Board may find it necessary to assign students outside their normal attendance area as set forth in this policy.

Residence Defined
Pupils whose parents or guardians are legal residents of the school District and have custody of the student, or as otherwise provided by state or federal law, shall be considered residents and entitled to the privileges of the District’s schools. Residence is defined by primary living quarters.

If the court system has granted parents/guardians joint custody of a child then the primary residence has to be declared upon enrollment and the child has to remain in that designated school for the school term.

Proof of Residency
In determining residency for the purpose of this policy two (2) or more of the following items and/or documents shall be required. The School, District and/or the Board may, at their discretion, request additional information.

1. Utility bill in the name of the parent/guardian;
2. Lease agreement in the name of the parent/guardian;
3. Notarized statement of residency;
4. Copy of Deed for Primary Residence;
5. Voter Registration; or
6. Vehicle Registration.
Transfers and Withdrawals (WCBE 09.111) This policy is being reviewed and/or revised by the WCPS Board of Education

**Teacher to Ascertain Reason**

When a pupil of compulsory school age withdraws from school, the teacher of the pupil shall ascertain the reason.¹

**Report to DPP**

The teacher shall immediately report the withdrawal and the reason for it through the Principal to the Superintendent’s office (Director of Pupil Personnel).

**Change of Residence**

If the child has withdrawn because of residence, the next residence shall be ascertained and included in the report. The District shall notify the Kentucky Department of Education when a new student enrolls.¹

**Missing Children**

The Director of Pupil Personnel shall notify the Justice Cabinet of any request for the records of a student who has been flagged as missing.¹

**Permission Required for Withdrawal**

Before an unmarried student between the ages of sixteen (16) and eighteen (18) may withdraw from school and terminate his/her education prior to graduation, s/he shall comply with the requirements of KRS 159.010.

A written permission for withdrawal shall be required from the parent, guardian, or other person residing in the state and having custody or charge of the student before the unmarried student may withdraw.

No written permission for withdrawal shall be required after the student’s eighteenth (18th) birthday.²

Beginning with the 2015-2016 school year, students between the ages of six (6) and eighteen (18) shall enroll and be in regular attendance in the schools to which they are assigned and shall be subject to compulsory attendance.²

**Follow-Up By District Personnel**

Within three (3) months of the date of a student’s withdrawal from school, District personnel designated by the Superintendent shall contact each student between the ages of sixteen (16) and eighteen (18) who has withdrawn from school to encourage reenrollment in a regular, alternative, or GED preparation program. If the student does not reenroll at that time, personnel shall make at least one (1) more attempt toward reenrollment of the student before the beginning of the next school year.²

**Student Requests for Transfer**

Requests for transfer to another District school must be based on physical, psychological, or educational reasons. Family hardship may also be considered in changing school assignment.

In compliance with and as set forth by federal requirements, the District shall allow students to transfer to another District school if:

1. Another school option exists;
2. The assigned school is identified for school improvement under federal guidelines (priority for transfer will be given to the lowest achieving children from low-income families);*¹
3. The assigned school is designated by the state as being “persistently dangerous”;
4. The student becomes a victim of a violent criminal offense, as determined by state law, while attending school.³

*Pending renewal of the Kentucky request to the U. S. Dept. of Education for flexibility, reason #2 above shall be waived through the 2014-2015 school year. If request is not renewed, then transfer reason #2 will be in force.
IN-DISTRICT TRANSFERS
Upon proper application, students who reside in one elementary, middle or high school attendance district within the District may be permitted to transfer to another District elementary, middle, or high school, provided such approval does not result in employment of additional staff, an imbalance in class size, class cap or overcrowding in the receiving school.

Each middle and high school Principal may accept additional students in a number not to exceed an established percentage of the student population living within a school’s specific attendance area. This percentage shall be recommended by the Superintendent to the Board of Education. The allocation of funding for the school will not be affected by this percentage and no staff will be added. The percentage and method for calculation shall be approved by the Board on an annual basis. The Board may allow out of district students to continue in a feeder school system provided they have been enrolled in that feeder system a minimum of two (2) years and it will not count toward the percentage calculation.

Resident Student Reassignment
Should classes in a particular school exceed the allowable size limit specified by law or regulation, the Superintendent/designee is permitted to move pupils from their respective attendance areas to balance student/teacher assignments. Any such reassignment would be at the cost or service of the Board.

WHEN A FAMILY MOVES
If a family moves from one attendance area to another within the school system during the school year, the pupil may be permitted to finish the school year in the school in which he/she was last enrolled (at no cost or service by the Board). An In-District Transfer application must be completed by the parent/guardian and submitted to the Principal for approval. The following criteria apply:

1. The Principal gives approval;
2. Class size limits are not exceeded;
3. The student maintains a “C” grade (cumulative through the student’s previous semester);
4. Must be in regular attendance (maximum of three (3) unexcused absences or three (3) unexcused tardies);
5. The student/parent provides transportation;
6. The student has an acceptable discipline record as determined by the Principal; and
7. There is no service provided or cost incurred by the Board.
8. Approval shall be granted with the understanding the student may be required to enroll at the school serving his/her attendance zone if, the above criteria are not met. The student may be asked to return to their school or residence at the beginning of the next grading period/term.

NON RESIDENTS
Nonresident pupils upon application and timelines may be admitted to the District’s schools in accordance with Board policy and upon approval of the Superintendent. The number of nonresident pupils admitted to a school shall not exceed the number of in-district transfers granted for that school.

Admissions and Attendance (WCBE 09.12) This policy is being reviewed and/or revised by the WCPS Board of Education

RESIDENCE DEFINED
Pupils whose parents or guardians are legal residents of the school District and have custody of the student, or as otherwise provided by state or federal law, shall be considered residents and entitled to the privileges of the District’s schools.

All other pupils shall be classified as nonresidents for school purposes.
**Homeless Children and Youth**

The District shall provide educational and related services to homeless children and youth in a manner that does not segregate or stigmatize students on the basis of their homeless status.

The District shall provide its schools with guidelines that detail the rights of homeless students and the responsibilities that schools have to meet their needs and eliminate barriers to school attendance. These guidelines shall emphasize the right of homeless students to:

1. Have equal access to all educational programs and services, including transportation, that non-homeless children enjoy;
2. Continue attending their school of origin for the duration of homelessness;
3. Attend regular public school with non-homeless students; and
4. Continue to receive all services for which they are eligible (i.e., special education, gifted and talented, limited English proficient).

The District shall designate an appropriate staff person to serve as liaison to homeless children and youth. The District liaison must provide public notice of the educational rights of homeless children in places where they receive services.²

**Immigrants**

No student shall be denied enrollment based on his/her immigration status, and documentation of immigration status shall not be required as a condition of enrollment.

**Nonresidents**

Nonresident pupils may be admitted to the District’s schools in accordance with Board policy and upon approval of the Superintendent.³

Written nonresident pupil contract information shall be kept on file at both the attending and resident districts.

**Transfer of ADA**

Nonresident pupils may be admitted to the District schools upon payment of tuition and/or transfer of the pupil’s average daily attendance as defined under Kentucky’s public school fund.⁴⁵

**Foreign Exchange Students**

The District shall only accept students from exchange programs approved by the National Association of Secondary School Principals. Foreign exchange students shall attend for only one (1) school year for the purpose of gaining language and cultural experiences. Grade level placement of students shall be determined by the Principal.

Foreign exchange students will be allowed to enroll only during the first five (5) school days of each semester. The student must submit to the receiving school thirty (30) calendar days before enrollment a videotape of the student using conversational English to show the English speaking skills of the student. The school will determine if the student’s English speaking skills meet the enrollment requirements. These conditions and requirements may be modified in exceptional circumstances as determined by the Board upon recommendation of the Superintendent.

The Principal and/or his/her designee will determine the student’s schedule. Students will be expected to follow the school’s rules of conduct and will follow the same disciplinary code as all students.

Foreign exchange students who are not in the U.S. on a visa issued specifically for educational purposes and thus have not paid the district yearly cost of educating a student may not be considered for graduation.

**Non-immigrant Foreign Students**

Non-immigrant foreign students qualifying for F-1 immigration status or who obtain an F-1 student visa may be admitted to the District based on the following guidelines:

1. These students shall not be permitted to attend any publicly funded adult education program.
2. These students may be permitted to attend in grades nine through twelve (9-12), but not at earlier grade levels.
3. As required by law, these students shall pay a tuition fee equal to the full, unsubsidized per capita cost to the District for providing education to the student for the period of attendance.

4. The period of attendance shall not exceed twelve (12) months.

These requirements do not apply to immigrant students residing in the District or foreign students in any other immigration status, including exchange students.

Expeled/Convicted Students

The parent, guardian, Principal, or other person or agency responsible for the student shall provide to the school prior to admission, a sworn statement or affirmation concerning any of the following that have occurred in or outside Kentucky:

1. If a student has been expelled from school; or

2. If a student has been adjudicated guilty/convicted of, homicide, assault, or an offense in violation of state law or school regulations relating to weapons, alcohol, or drugs.

Assault shall mean any physical assault, including sexual assault.

The sworn statement or affirmation shall be on a form provided by the appropriate state agency and shall be sent to the receiving school within five (5) working days of official notification that a student has requested enrollment in the new school.

Expeled/Convicted Students (continued)

If a student is suspended or expelled for any reason, or faces charges that may lead to suspension or expulsion, but withdraws prior to a hearing from any public or private school in Kentucky or any other state and then moves into the District and seeks to enroll, the District shall review the details of the charges, suspension, or expulsion and determine if the student will be admitted, and if so, what conditions may be imposed upon the admission. Prior to a decision to deny admission, the District shall offer the student, parent/guardian, or other persons having legal custody or control of the student a hearing before the Board.

New Eligibility Requirement for Kentucky State-Funded Preschool Guidance for School Districts

What Changed?

As a result of House Bill 235, changes were made the Kentucky State-Funded Preschool Program. A new minimum age requirement for state-funded preschool students will take effect this fall, moving from October 1 to August 1. Beginning in school year 2014-15, children who are four (4) years old by August 1 are age-eligible for the state-funded preschool program. In addition, the income eligibility requirement will change from 150% of poverty in 2014-15 to 160% of poverty in 2015-16.

What options are there for children turning four after August 1?
Districts should support families of non-eligible young children with existing strategies and resources, including referrals to childcare and Head Start, tuition options for preschool if space is available, and child development materials such as the Early Childhood Parent Guides.

Preschool eligibility may be determined up to four (4) months prior to start of school (704 KAR 3:410). Some districts have already started the enrollment process for the 2015-15. What about at-risk children turning four by October 1 who are enrolled four months in advance of 2014-15? Can they still attend preschool next year?
Yes, if eligibility was determined before May 1, 2014. They are eligible for 2015-15 ONLY. The students will need to be enrolled in Kindergarten in 2015-16. Districts may not count these students toward preschool enrollment in 2015-16. All other children turning four after August 1 will not be eligible to enroll for 2015-15 school year.

What about preschool children with disabilities?
School districts are required to provide instruction to children with disabilities based on individuals with Disabilities Act (IDEA) and Kentucky special education regulations (704 KAR 1:002-1:380). The Individualized Education Program (IEP) tells what supports, services, instruction and amount of time in a regular education classroom, must be provided to a child with disabilities. Beginning in 2014-15, preschool children with disabilities who turn four between August 1 and October 1 will be eligible for preschool as three-year-old students.

What about children turning four between August 1 and October 1, 2014, will they be eligible for state-funded preschool AND kindergarten in 2015-16?
Some children will turn five between August 1 and October 1, 2015, meaning they will be eligible for state-funded preschool AND kindergarten in the 2015-16 school year. However, districts cannot simultaneously enroll children in both programs; a decision must be made to enroll in one program or the other. Decisions must be made locally, and schools should work closely with families to meet the learning needs of each child entering school. Children develop at different rates across the learning continuum, and schools must be ready to meet children where they are developmentally.

What about Head Start and school district full utilization agreements?
Each year school districts and Head Start providers agree to fully utilize Head Start funds and avoid supplanting federal funds being sued to provide services to children with state funds. Since Head Start is required to follow the date used by school districts to determine eligibility, some partnerships may need to adjust full utilization agreement numbers based on the number of four year olds currently served with birthdates between August 1 and October 1.

What about income eligibility for preschool?
School districts must determine income eligibility of four-year-old students. Beginning in school year 2015-16, children who meet 160% of federal poverty income requirement will be eligible for preschool. School districts should update recruitment processes and materials to reflect this change, as well as enrollment applications.

How will the preschool students be identified in Infinite Campus/Kentucky's Student Information System (KSIS)?
KDE is in the process of updating the data standards to detail how preschool students should be identified and tracked in Infinite Campus. Updates to requirements will be communicated with districts through KSIS alerts and notifications, KSIS newsletters, and KSIS training. These changes will be reviewed in detail during the 2014-2015 KSIS Beginning of Year (BOY) training being scheduled this summer. There will be new procedures for enrolling preschool students based on new requirements. This will include examples and scenarios and will be posted on the School Readiness web page by June 30, 2014.

**Preschool**

In accordance with appropriate state and federal legal requirements, any child who has been identified as disabled or as exceptional, and who is three (3) or four (4) years of age, or who may become five (5) years of age after August 1 of the current year, shall be eligible for a free and appropriate preschool education and related services.

The District shall establish guidelines to determine a student’s level of academic and social skills when that student is being considered for advancement through the primary program. **Failure to Provide**

Except for vision examination forms and dental examination forms as noted above, which are due by January 1 of the first year of enrollment, failure to provide the remaining required documentation within thirty (30) calendar days after enrollment may constitute reason for appropriate action.
EARLY ENTRANCE TO KINDERGARTEN PROTOCOL WARREN COUNTY PUBLIC SCHOOLS

According to Board-approved Policy 09.121 regarding “Early Entrance to Kindergarten,” state law requires districts to have a process in place that allows a provision for parents of children who are not at least five (5) years old by October 1 (KRS 158.030) to petition the District for early entrance to kindergarten.

The following is the District’s Early Entrance to Kindergarten Protocols:

1. Any parent requesting that their child be screened for early entrance to kindergarten may do so between July 1 and September 1 of the current school year. **No child may be screened prior to July 1 or after September 1.**

2. Parents must obtain the **Petition for Early Enrollment Form (09.121 AP.21)** and complete both pages. This form must be submitted to the Supervisor of Primary Instruction at the Warren County Board of Education prior to scheduling the actual Kindergarten Readiness Screening.

   Forms may be picked up at the Warren County Board of Education, at the prospective school of enrollment, or online at [www.warrencountyschools.org](http://www.warrencountyschools.org)

3. Once the Petition for Early Enrollment Form is received by the Supervisor of Primary Instruction, the District Kindergarten Readiness Screener Administrator will be contacted to arrange the date, time and location for the screening to take place.

4. The person bringing the child (parent, guardian or caretaker) to the screening should expect to stay thirty (30) minutes to one (1) hour for the screening. They will be asked to complete a form regarding the child’s growth and development while the child is being screened. During the screening, the child will be separated from the parent or caretaker in order for the screener to be administered in the same manner as for all other incoming kindergarten students. If the school year has begun, the screening will only be scheduled during a timed of reduced disruption within the school in which the child is being screened.

5. In order to be considered for early enrollment, the child being screened must meet the state-approved readiness level as determined by the Brigance Kindergarten Readiness Level requirement.

6. Within five (5) days of the screening, the parent(s) will be notified of the results. Screening results will only be shared and discussed with the parent/guardian.

7. If the child’s results indicate kindergarten readiness, parents will be given contact information and required documentation needed in order to complete the enrollment process. Parents may request a meeting with the Supervisor of Primary Instruction and/or the District Brigance Screener Administrator to discuss the results.

8. If the child’s results do not indicate kindergarten readiness, the parents may request a meeting with the Supervisor of Primary Instruction and/or the District Brigance Screener Administrator to discuss the results.

### Zero Tolerance and Structure for Responses to Student Misconduct (Procedures)

The Warren County School District has adopted a discipline process of zero tolerance for acts of racism and weapons, drugs, alcohol and violence. Zero tolerance means both limit setting and enforcement of that limit. A discipline violation shall cause an automatic office referral which result in demonstrated consequences for the student misbehavior. All threats of violence will be taken seriously. Following investigation by school staff, an immediate suspension may occur. In addition, a police report may be made if circumstances warrant.

The following are examples of student misconduct and responses thereto; however, in a document of this nature it is impossible to list all examples. Therefore, student misconduct and responses thereto are not limited to only those examples and responses, which are listed herein. Responses to violations of the district’s drug and alcohol policy are described in (WCBE 09.4; 09.42; 09.424; 09.426; 09.42811; 09.43; 09.431; 09.432; 09.4341; 09.438).

Responses to student misconduct may be modified for students with disabilities in accordance with the IEP or 504 plan, using the appropriate committee and all due process procedures.

**Level I:**

Minor misbehavior on the part of the student that impedes orderly classroom procedures or interferes with the orderly operation of the school. These misbehaviors can usually be handled by an individual staff member but sometimes require the intervention of other school support personnel.

Acts directed against persons or property but whose consequences do not seriously endanger the health or safety of others in the school. These acts may result from continuation of Levels I and II behaviors and/or might be considered criminal but most frequently can be handled by the disciplinary mechanism in the school. Corrective measures, which the school should undertake, however, depend on the extent of the school’s resources for remediation of the situation in the best interest of all students.

1. **Examples:**
   a. Fighting;
   b. Vandalism (depending on severity);
